**STRATEGIC PLAN:**

Area of Focus: Core Services/Other

Strategic Plan Category: 9999 - Core Services/Other

**DISCUSSION:**

The water runoff associated with fire suppression efforts resulting from the 5-alarm structure fire involving multiples commercial buildings at 10<sup>th</sup> and H Street, Arcata, CA, on Jan. 2, 2026, including runoff containing ash, debris, and potentially hazardous substances from building contents, poses an imminent threat to public health and safety and may cause significant impacts to environmental resources, including storm drain systems, surface waters, and adjacent properties. Due to these impacts and potential impacts to water quality and environmental health, including downstream effects to aquaculture operations, fisheries, and sensitive aquatic habitat, Sheriff Honsal issued a Local Emergency Proclamation on Jan. 3, 2026. These conditions of extreme peril to the safety of persons and property exist and may continue as environmental hazards are assessed and mitigated, and the situation is of such severity and magnitude that effective response is beyond the capabilities of the City of Arcata and County of Humboldt.
