10) Please write a brief statement describing why you are interested in serving on the Humboldt County Behavioral Health Board:

Living in Humboldt County, we have all seen the effects of both the rampant opioid crisis and mental health issues first hand, often times on a daily basis. Mental health and the subsequent world around it, be it inadequacies in health care or even stigmas surrounding discussion, have been a prevalent part of my life since I was young. Working with Humboldt County and being a Criminology student has opened my eyes to the options we have in working to help change our community for the better, I would like to serve on the Humboldt County Behavioral Health Board in order to continue that path. Everyone deserves a fighting chance to be healthy and happy.

10)Please write a brief statement describing why you are interested in serving on the Humboldt County Behavioral Health Board:

Many people that I know are affected by mental health issues, including myself. For my undergraduate I studied psychology and gained a plethora of knowledge about mental health and behavioral health. Learning about all the different types of disorders that can affect people was really interesting to me. As well as, learning that our brains are physically affected by mental health disorders. I know I wanted to use this new knowledge to help people with behavioral health issues understand their own disorder and help them cope with it daily. Living in Humboldt County you are exposed to these people and I always had compassion for them. That is why I think serving on a board that openly talks about these issues will help me to understand more about mental health issues in Humboldt County and be better equipped to help these people in need.
