

Humboldt County  
1105 Sixth Street  
Eureka, CA 95501

April 23, 2024

Dear Cybelle Immitt,

Congratulations! The Conservancy Board authorized a grant of \$362,049 for the Humboldt County for Supporting Rural Wildfire Resiliency with Lidar Derivatives Project (24-012-01). This project is for the development of topographic and forest structure lidar derivative datasets for nine north coast counties which are critical data layers for wildfire resilience planning. This project is in partnership with the North Coast Resource Partnership (NCRP). This was approved as agenda item 17 at the April 18<sup>th</sup>, 2024 board meeting.

The Conservancy requires a resolution from the Board of Supervisors (see attached template) in order to disburse the funds. If you have any questions, please contact me at [lilly.allen@scc.ca.gov](mailto:lilly.allen@scc.ca.gov).

All the best,

*Lilly Allen*
