After talking to you, here is some food for thought

I am a thinker

Let's get the religious stuff out of the way.
What proof is there something like an eternal entity did not create
all there is and where is the proof showing otherwise

(I have read the bible, been to church, and been a good Christian)

Labels are B.S.

(See H.S. reunion talk)

We can only say and act on our experiences

Truths are as you see them

(What can I do to prove what I say)

Local, country, and world messes can all be discussed

(Talk is cheap and there are a lot of messes)

(My dad said revolution is coming, and I laughed)

Issues are all over the place and real world truths are losing

(Inexperienced media, those with money and power, politicians, legalese, protectionists,
voting minority, and regulators (Fourth Branch of Government) are in control)

(In my world, this all starting with unsupported protectionism)

SOLUTION???

(Upbringing, doing without, and accepting real world truths is a start)
