Licenses & Permits	CDFA Cannabis Cultivation Annual Permit, CDFA Cannabis Cultivation Provisional Permit, Jurisdiction Business License
Licenses, Permits, & Agreements	archive-1.zip
Word Limit: 500	<p>I have started a seed start and cloning business called Mary Janes Way LCC as well a farm. The purpose is to get people to buy locally from the local ma and pop farms. We have a permitted green house, 80 holes in our garden area, veggie beds and a place to grow fruit trees. I would like the funds to permit, finish paying my LLC, pay on the farm, set up solar to get fed back into PG&E and secure the property with a camera system as we have been having problems.</p> <p>I have applied for Grants.gov. I also applied for many loans but banks don't want to loan out unless the business is operating and we fall short on getting a personal loan. Ive reached out to friends and family and community churches.</p>

Resumen del formulario

Word Limit: 500

Our farm is 100% owned and cared for in Carlotta, Humboldt County, CA. We are a self sustaining farm. We have land for chickens ducks and goats. We have room to grow extra veggies to do the farmers markets in Fortuna or donate them to families in need.

I plan to consult with an accountant- Gary Wyatt to help me figure out the tax end of the business, I have an appointment in the near future.

At this point we do not have a need for full time employees but potentially will need part time help through out the growing season.

We will be using our funding to help finish paying our LLC and permit the farm and help set up solar for long term sustainability as well as security purposes.

Word Limit: 500

We have created a spot to keep our recyclables organized and the trash away from animals We do two trash runs a month We are in the process of setting up our 50 solar panels to feed back into the company There is a water shed located on the property and we use a well to access water. We have an area set up with a 2000 gal of water for fire safety and would like to get one more purchased.

Word Limit: 500

The business license was established March 11 2019. We have a set up with a couple of cloning machines as well as a table for the mom plants. A small greenhouse when we transfer. We also started up a website that needs work. There is also the garden set up with 80 holes as well for organic flower.

We are in the process of an attestation(under 20 employees). As for the farm, I have the area set up for outdoor grow with 80 holes.

I am 10 years experienced in green house, auto flowering, hydroponics. Experienced in both organic and synthetic nutrient formula.

We are working towards setting up our 50 solar panels to go back into the company.

The funding would clearly help with our environment problem as well as move forward with the permitting process.

Word Limit 250

I bought this farm back in 2007, built my own home, barn, and green house as well as cleared a garden area, and run on a well. Despite the Covid pandemic, [REDACTED]

[REDACTED] We are looking to grow our farm in more ways than one. Im a father now, I want to raise her on the importance of self sustainability and this industry.
