Subject: Needing Board member

Dear Lucinda Jackson:

I am writing you this letter on April 29, 2020 in concern on getting a new board member appointed to fill Rosealee Crenshaw's position.

We have flown the position for 60 days and we have an interested person for that position, but at the time of his interest we did not have a quorum and the covid played a part in us not getting our new member on board before the 60 lapsed in filling that position.

Roger Hall who has been a resident of Alderpoint for more than 30 years is very interested in filling the position we need as a board member. He has expressed his interest and cares what happens to our water here in Alderpoint. He wants to make sure that we continue to have a governing board here in Alderpoint so that the people who reside in Alderpoint have good, safe water to drink. Roger is a family man and is well known and respected in our community. I feel he would be a wonderful addition to our board.

Thank you,
Cheryl March, Secretary
Alderpoint County Water District
