Weott, Scotia, McKinleyville, Pine Hill, Humboldt Hill, Cutten, Myrtle town, and Ridgewood Heights areas.

EVIDENCE: a) Record File: PLN-2023-18368

FINDINGS FOR CALIFORNIA ENVIRONMENTAL QUALITY ACT

2. FINDING: The proposed amendments to the Zoning Ordinance are exempt from environmental review exempt per Section 21080.085 of the Public Resources Code, where CEQA does not apply to a rezoning that implements the schedule of actions contained in an approved housing element pursuant to subdivision (c) of Section 65583 of the California Government Code.

EVIDENCE: a) The proposed amendment implements Housing Element Implementation Measure #61 (H-IM61) from the 2019 Housing Element. The 2019 Housing Element was approved by the Department of Housing and Community Development (HCD) on October 22, 2019.

PUBLIC INTEREST

3. FINDING: The proposed ordinance is in the public interest because it creates additional housing opportunities in a planned and orderly manner.

EVIDENCE: a) There is a need to provide housing opportunities for people at all income levels.

b) Allowing higher residential densities within housing opportunity zones increases housing supply, affordability, sustainability, and equitable access to opportunity.

c) The ordinance establishes development standards and will be implemented in areas with existing or planned infrastructure. This will ensure compatibility with surrounding neighborhoods, maintain adequate service levels, and minimize potential adverse impacts, including displacement and infrastructure strain.

CONSISTENCY WITH THE GENERAL PLAN

4. FINDING: The proposed Mixed Residential Density Ordinance is consistent with the General Plan.

- EVIDENCE:**
- a) The Mixed Residential Density Ordinance implements the Housing Element. The proposed ordinance incorporates the Humboldt County General Plan's goals, policies and standards as directed in Implementation Measure H-IM61. H-IM61 directs the County to amend the Zoning Regulations allowing higher residential densities and flexible housing configurations within Housing Opportunity Zones to address workforce housing needs for existing and new development.
 - b) The General Plan identifies where commercial, agricultural, and industrial uses are allowed. This ordinance amendment would not change that allowance beyond allowing higher residential density in residential zones.

CONSISTENCY WITH STATE PLANNING LAW

5. FINDING: Humboldt County Code Section 312-50.3.4 requires that any proposed amendment must not reduce the residential density for any parcel below that utilized by the Department of Housing and Community Development in determining compliance with housing element law unless specific findings are made. The proposed amendment does not limit the number of housing units which may be constructed on an annual basis.

- EVIDENCE:**
- a) The proposed ordinance increases maximum residential density in R-1 and R-2 zones, although only when certain conditions are met. Section 314-56.6.5.1.1 of the proposed ordinance explicitly states that the proposed ordinance shall not be construed to reduce any existing maximum densities.
 - b) Per Section 314-56.6.6.4, the proposed ordinance may not be utilized to reduce the number of dwelling units on any site, so it requires replacement of the same number of bedrooms and dwelling units that had been present on the site within the past 5 years.
