To whom it may concern,

September 5, 2019

Our neighbor Fernando Olea Vasquez is attempting to gain a permit to manage his agricultural crop of Cannabis. Because we (a religious institution) are located within 600 feet of the grow, the county requires that we issue a letter stating our position. We understand that Fernando wishes to expand the grow to within 300 feet and because of the location to the barn and not the actual campground, we have no issue.

As members of the Seventh-day Adventist Church, we are not favorable to the effects that the Cannabis product can produce to the human body. As such, we are not supportive of the product that is grown on Fernando's property, however we will also not interfere with his process to obtain a permit from the county. In fact, we, would want to support Fernando's rights to exercise his business as it falls under the legal prescriptions.

During our camp session in July, Fernando gave us a tour of his facility. It is located above the storage barn portion of our facility. Parcel # 211-151-017-000 at address 1752 Dyerville Loop Rd adjacent to our parcel # 211-151-025-000, address 2437 Dyerville Loop Rd which is our storage barn location.
