McKinleyville Municipal Advisory Committee Statement

As a local business owner my interest in serving on the McKinleyville Municipal Advisory Committee is very clear. The continued success of my business is reliant on the continuing development of our local economy; over which this committee will exert influence. Equally important to me is my personal interest in serving on this committee; McKinleyville is not just my place of business, but my home. A long term resident and homeowner, I have taken a great interest in the development of not only my community's economy but its identity as a friendly, country town cradled between the redwoods and the Pacific. I am committed to over the last 24 years I have grown my business as McKinleyville has grown up around me. In these challenging times, I find it increasingly important to help foster a strong and united community. I appreciate the opportunities I have had in the past few years to work with other community members whose talents and energy have helped to create the economy and our community identity that we all enjoy today. I appreciate the opportunity to be considered to continue supporting and investing in our community; whether it is the education of our youth, development of our natural resources and economy or the care of our elderly. In closing, to serve on a committee whose sole purpose is to help guide the future of our community is a privilege and a cherished opportunity for me. I am pleased and honored to apply and be considered.

Kevin M. Jenkins
