Description

The proposed special permit will allow operation of a commercial cannabis warehouse company. The company will collect and store commercial cannabis products for transportation and delivery. The proposed facility will be used exclusively as a storage and warehouse facility; no packaging or processing is proposed. An office providing support administrative functions for the business is included in the special permit application. It is located in Redway at 3354 Redwood Drive. An exception to the loading space requirements is being requested. The standard loading space is 10 feet wide and 60 feet long, and because only small vans will be used in connection with this distribution operation, a loading space of 10 feet wide by forty (40) feet long is being proposed.

Decision

Approval of the project described above was denied by the Planning Commission on
