\$50,000 Eligibility	
<input type="checkbox"/>	
If Other, please explain	
What amount of the business is Humboldt-owned? "Humboldt-owned" is defined by registered residency of owners	100% Humboldt-owned
Ownership Structure and Owners	[REDACTED]
# of FTE Employees	1

## Resumen del formulario

Summarize the business/association and its activities Word Limit: 250	5000 Sq ft Family owned regenerative & organic cannabis farm.
Program / Project Name	Old Growth Farms - Water System Improvments
Requested Amount	USD 7706.00
Total project cost/funding needed:	USD 7706.00
Additional Funding Sources	
Type of project	Implementation
If Other, please explain	
Project Address	
Project Assessor's Parcel Number (APN):	209-231-012
Does the project/business consist of a qualified outdoor cultivating operation (as per Humboldt County Land Use Ordinance) that produces less than 10,000 sq. ft. of cannabis (not including co-ops and associations whose cumulative area may exceed 10,000 square feet)?	Yes
Licenses & Permits	CDFA Cannabis Cultivation Provisional Permit, CDFW Lake And Streambed Alteration (LSA) Agreement or written verification if not needed., Humboldt County Provisional Permit, Jurisdiction Business License, California Department of Tax and Fee Administration tax permit, CDFA Weighmaster license, Federal Employer Identification Number (FEIN)
Licenses, Permits, & Agreements	<a href="#">archive-1.zip</a>
Word Limit: 500	Upgraded to include, storage, pumps, filtration and minor electrical to assist with pumps.
Word Limit: 500	Our economic impact will be to further develop and support local family owned small farms and sustainable regenerative organic farms. This will help to strengthen the Humboldt branding and promote Humboldt cannabis. The requested grant would help our farm improve its water source and water security, this benefits our crop and leads to large yields. This will increase the long term sustainability of the farm. Support for our business would contribute to promoting local small family based agriculture and help bring more awareness to regenerative agriculture and organic farming techniques.

## Resumen del formulario

Word Limit: 500	<p>We believe in the current climate crisis we are facing farms will need to look at there respective roles in contributing to unsustainable farming techniques. We believe many of these factors can be addressed by organic and regenerative farming. This form of farming nourishes the land and finds way to work better with the surrounding environment.</p>
Word Limit: 500	<p>We have contacted a company out of Eureka, CA called Watson Well services They have visited our farm and taken water samples. Based on the samples they have recommended a water system that will address the high iron content currently found in our water system. We have previously made investments to well infrastructure such as a new electrical system that is safe to run the pump house. We are aware of cultivation best practices and this funding would help to improve our agricultural source of water.</p>
Word Limit: 250	<p>We currently have a provisional license from State and and county. However we have completed everything in our compliance agreement except the final electrical walk through inspection of our AG exempt greenhouses. This inspection should happen in the next couple of weeks or months. Once this is complete we will have a final annual county and state license.</p> <p>Also i would like to note we submitted an earlier request for funding but i was mistaken as to the limitation of 10,000 per applicant. I basically misread the part that said cooperatives and road maintenance associated were eligible for more funding. Because of this i am re-submitting a new request with a lower amount being asked for and focusing just on the water issues on the farm.</p>
