Gardner Carlson  
I feel I can provide value added input as a new Advisory Board member. I currently work at Aegis Eureka as a dispensing nurse. I have many years of experience in the management of mental illness in my family and in my professional career. I believe in doing things with people and a positive and supportive manner, not doing things to people through restrictive, punitive or in a manner that isolates them and does not allow personal independence and autonomy. I wish to be a positive force in creating necessary social change in our community.

I am interested in engaging participating bodies and groups of organizers who work in fields related or effected by decisions and processes that are overseen by the HCBHB. I also believe that a portion of the population that needs representation is the Latinx community, which grows in our county.

For these reasons id like to join the team and devote time to help our community receive the help and support it needs to thrive.
