To: Humboldt County Planning Commission
Permit Hearing
Project Record # PLN-11955-CUP
Date of Hearing November 4, 2021
Parcel address 3955 Rancho Sequoia Drive

I am an 80 year old property owner of four parcels in the Rancho Sequoia subdivision two of which border this property.

History of problems with the property 3955 Rancho Sequoia Dr.

1. Shooting towards my residence that has hit several trees or something about thirty feet from my house.
One shot hitting a tree 10 feet above where I where I was sitting.
2. Property line markers some moved and others removed.
3. Using part of my property and refusing to remove things when asked to stop.
4. Using toxic sprays that reached my orchard gardens and I became very sick from smell and have to leave area for 2 or 3 days.
5. Generator running 24/7 with noise making it difficult to sleep even with windows closed. Exhaust from generator very strong causing health reaction.
6. Constant all night dog barking causing sleep problems.
7. Very large orange light looking like a large forest fire starting.
8. Unable to check that part of my property due to safety issues.
9. The road from Rancho Sequoia Dr is not a private driveway and on the subdivision map it was called Oak Court and crosses two other property owners property. The road crosses two of my parcels.

My property is being put into a Private Forest Reserve and land manager needs to feel safe to check often on health and status of this property

I would like to have these things resolved to avoid a lawsuit and possible elder abuse.

I would like to freely and safely use my property and enjoy it with my family and great grand children.

My quality of life .my health and safety and enjoyment of this part of my property has been stolen from me and I will take legal action to restore this.

Sincerely

Deanna Arias

3495 Rancho Sequoia Dr
