1100101 - Board of Supervisors	2	8697	Board of Supervisors Audit Services	Transportation and Travel for five elected board members, Assessment Appeals Board and CSAC travel	Core Services	(62,733)		- (62,733)	-
1100101 - Board of Supervisors	1	8698	Board of Supervisors Travel	Professional services for mandated audits of county financial records, video and security fees for Board meetings, and assessment appeals stipends.	Support a Well-Trained Workforce	(63,444)		- (63,444)	(63,444)
1100111 - Auditor-Controller	1	8693	Retain existing staffing levels	<p>The Auditor-Controller is requesting \$114,460 in additional one-time funding to retain existing staffing levels. This is being proposed as one-time funding because the goal will be to increase revenue over the next fiscal year to help cover ongoing staffing costs. Based on initial outreach it is believed that special districts and some county departments could benefit from additional accounting services being offered on a cost reimbursement basis. The fees would only be for supplementary services no charges are being considered for existing services currently being provided. Auditor-Controller staff has extensive accounting and financial reporting experience that could potentially be offered to special districts and departments when they have short term, intermittent or other specialized accounting needs.</p> <p>The department is already holding one position vacant due to the voluntary separation incentive program. All allocated positions in the office are now filled and substantial resources have been expended recruiting and training new staff. Elimination of an additional position at this time would severely impact the department's ability to complete mandated audits and reporting. It is anticipated that all reporting and audits will be current at the end of 2024. This will allow six months to implement a program to provide additional accounting services.</p> <p>Approval of the additional one-time funding request is needed to provide required core accounting services that support all of the priorities outlined in the Board's Strategic Framework. Additionally, failure to meet mandated deadlines has the potential to impact the county's access to grant funding and negatively impact revenues.</p>	This Core Services	31,200	(145,660)	(114,460)	(114,460)
1100113 - Assessor	1	8806	Maintenance fees for computer software	In FY 2023-24, the Assessor's office implemented new software which saves the department money through the reduction of need for 1.0 FTE. Additionally, it increases the speed of processing deeds. Furthermore, the Assessor's office is able to process ownership changes more efficiently, which will accelerate timely supplemental bill processing, assessor map maintenance work, and provide accurate property tax assessments to fund public services. 1100140 - Elections	2	9023	2024 Presidential Primary Funding Increase Request	<p>Request for increase in 02 Services and Supplies category in the amount of \$107,626.00. The proposed 24-25 Fiscal Year is also a U.S. Presidential Election year. Voter turnout is traditionally higher for the Presidential Election than any other type of Election. For a Presidential Election the turnout is 72 to 82 percent of the Registered Voters. For a Presidential Primary year like the recent one is between 41 to 67 percent turnout. With an increase in turnout there usually is an increase in cost to provide voters with the necessary information that is requested or may be requested. When budgeting for this Fiscal Year, the additional costs of \$107,626.00 exceeded the County Allocation and Department expected Revenue. Elections are mandated and costs goes along with that, however, Elections takes the fiscal responsibility seriously and will always explore savings and cuts where possible. The goal is to only use what is necessary and return unused funds.</p> <p>The primary expenditure that this additional funding covers is in ballot materials such as ballot stock and printing. The increase in voter attention to a Presidential Election also increases requests for replacement ballots because they are inadvertently thrown away, damaged, or not received. Also, costs increase when a two-page ballot replaces a one-page ballot. It is expected that there will be a two-page ballot this election which is also reflected in the additional funding request.</p>	Celebrate Successes and Foster Community Pride	(107,626)		- (107,626)	-
