WHEREAS, in (year of existing agreement), the parties entered into an Agreement for Environmental Health Services wherein the COUNTY agreed to furnish health officer related functions to the CITY in consideration of compensation; and

WHEREAS, subsequent to the existing Agreement, State laws have directly authorized the COUNTY to administer certain environmental health programs throughout the COUNTY, and the COUNTY instituted a Director of Environmental Health to administer and enforce environmental health programs and to oversee a separate County Division of Environmental Health (DEH); and

WHEREAS, the parties desire to update and clarify their contractual relationship related to environmental health services offered within the CITY, where such services depend in part on a contractual relationship; and

NOW THEREFORE, in consideration of the foregoing and the mutual covenants and promises contained herein, the parties hereto mutually agree as follows:

1. RIGHTS AND RESPONSIBILITIES OF THE PARTIES:

A. The COUNTY, through its Public Health Officer, its Director of the Division of Environmental Health (DEH), or designee, shall:

1. Implement and enforce within the CITY, as shown in Exhibit A, environmental health laws and regulations, as amended or adopted by the State, which the COUNTY’s DEH and/or Health Officer is mandated by law or otherwise authorized by the State to administer county-wide. Exhibit A sets forth these programs as of the effective date of this agreement.
2. Provide within the CITY, to the same extent as in the unincorporated COUNTY, the basic environmental health services set forth in Section 1276 of Title 17 of the California Code of Regulations and established by the Board of Supervisors based on powers that apply county-wide or as may be amended by the Board. Exhibit A describes these environmental

health programs, as of the effective date of this Agreement, with specific information on the scope of implementation by DEH within the COUNTY and CITY with adoption of this agreement.

3. Where supported by parallel CITY ordinance, administer and enforce within the CITY additional discretionary environmental health programs to the same extent implemented and enforced in the unincorporated areas of the COUNTY. Exhibit A, paragraph 6.2, sets forth these programs as of the effective date of this Agreement.
4. Refer non-compliant and/or recalcitrant operators found to be in violation of applicable regulations to CITY enforcement program staff after exhausting administrative procedures as followed for regulated enterprises and/or properties in unincorporated county areas. The referral shall follow the procedures outlined in Exhibit D, EH-03-001, Code Enforcement Unit Referral Format.
5. Keep accurate records related to the consumption of materials, use of equipment and professional third-party services (laboratory analysis, professional services and/or consultation) necessary during the investigation of any received complaint or routine regulatory inspection for reimbursement purposes. Costs shall be paid by either the operator of the regulated facility found to be in violation of applicable regulations or the CITY when services are rendered in response to a request from CITY staff.
6. Cooperate with the CITY to resolve violations of public health or environmental health programs that simultaneously implicate both CITY-administered and COUNTY-administered programs.
7. Ensure cooperation by COUNTY staff with CITY staff and departments during the performance of public health and environmental health functions within the CITY.

2. Promptly respond to orders and/or directives issued pursuant to Section 1(A)(3) for information or action in which the COUNTY Public Health Officer has indicated there is a potential public health risk which will require the CITY to take steps to mitigate such risk. County directed action could require additional municipal services than what CITY is currently providing.
3. Ensure cooperation by CITY staff with the COUNTY Department of Public Health and DEH in the performance of public health and environmental health functions within the CITY, including compliance with orders and directives issued by the County Health Officer related to DEH programs described Exhibit A.
4. Submit to the CITY Council, on an ongoing and as-needed basis, proposed Municipal Code revisions to (1) remove provisions that purport to authorize or require the Public Health Officer, Director of Public Health, or DEH to provide any public health or environmental

health service, or to administer or enforce within the CITY any public or environmental health program, which is not within the scope of this Agreement; and (2) to amend any provisions related to programs that are within the scope of this Agreement as needed to conform to the terms of this Agreement.

5. For programs that are based on ordinances, rather than State law, provide by ordinance that persons intending to engage in or engaged in regulated activities must seek and obtain plan

DRAFT

approvals and permits as specified by the COUNTY, must comply with applicable COUNTY requirements and procedures, and must pay applicable fees and any assessed penalties.

6. Refer complaints to DEH received by the CITY concerning COUNTY-administered programs included within this Agreement and listed in Exhibit C (DEH Complaint Subject Titles and Definitions 2023), including but not limited to, complaints about unpermitted food or body art vendors, or businesses unlawfully operating without a Certified Unified Program Agency (CUPA) permit for hazardous materials and waste. DEH can help with complaints unrelated to regulated facilities upon receipt of request from the CITY.
7. Obtain DEH approval of building permit applications and business license applications for retail food facilities, body art facilities, and public pools and spas; direct persons or entities proposing to handle, process or transfer municipal volumes of solid waste (including organic waste) to contact DEH prior to operations. Obtain DEH approval on applications for development on, or near, parcels within the CITY that are known to contain buried solid waste.
8. Cooperate with the COUNTY to resolve violations of public health or environmental health programs that simultaneously implicate both CITY-administered and COUNTY-administered programs.
9. Provide, where appropriate and when City resources allow, for code enforcement processes, or criminal prosecution when appropriate, to ensure thorough enforcement of the law and ultimate protection of public health and the environment.
10. Compensate the COUNTY, as described below in Section 2, Compensation, for services, and materials provided in programs with no explicit fee for service mechanism. Examples of non-fee-based services include response to complaints related to assessment of vector infestation, evaluation of potential water quality problem from animal keeping, and/or non-business hazardous waste disposal violations.

C. The parties shall:

1. Communicate, coordinate, and collaborate on public health and environmental health matters related to:

4. Where authorized by State law, the COUNTY may recover costs associated with services provided within the CITY through fees and charges to persons served. For services that are based on CITY ordinances, CITY shall, by ordinance, authorize the COUNTY to assess fees and charges to fully recover associated costs from persons served, or notwithstanding and other provision of this Agreement, COUNTY will have no obligation to provide those services.

2. COMPENSATION:

Where DEH services are not funded by a County Board of Supervisor approved fee, or grant award applicable to areas within CITY limits, all costs associated with the service shall be borne by the CITY. These costs shall be limited to services explicitly requested by CITY to be performed by DEH. Costs incurred pursuant to this section shall not exceed \$ _____ per fiscal quarter absent express written consent of CITY.
