DISCUSSION:

On September 7, 2016, the County of Humboldt entered into a Consent Decree with the United States Department of Justice that required the commencement of the Humboldt County Americans with Disabilities Act Compliance Project. The purpose of the Humboldt County Americans with Disabilities Act Compliance Project is to bring all facilities owned and/or leased by the County of Humboldt that provide programs, services and activities to the public in compliance with the Americans with Disabilities Act ("ADA"). The Humboldt County Agricultural Building Americans with Disabilities Act Modification Project is part of this compliance effort.

The Humboldt County Agricultural Building Americans with Disabilities Act Modification Project will address accessibility upgrades and deferred maintenance needs at the Agricultural Department facility located at 5630 South Broadway Street, Eureka, California. The Humboldt County Agricultural Building Americans with Disabilities Act Modification Project is being developed in collaboration with the Humboldt County Argicultural Commissioner, UC Cooperative Extension and Nichols, Melburg & Rossetto AIA & Associates, Inc. who will provide professional architectural design, consultation and construction oversight services. Upon completion of the Humboldt County Agricultural Building Americans with Disabilities Act Modification Project the Natural Resources Division of the

Humboldt County Department of Public Works will relocate to the Agricultural Building and co-locate with the Agricultural Commissioner and UC Cooperative Extension. The co-location of services is consistent with the campus concept included in the County of Humboldt's 2020 Facilities Master Plan.

The Humboldt County Agricultural Building Americans with Disabilities Act Modification Project includes the creation of an accessible path of travel from the public bus stop to the facility entrance, installation of one (1) accessible van parking stall and one (1) standard accessible parking stall connected to a new accessible route and the addition of a compliant accessible ramp at the auditorium wing entrance. Non-compliant ramps will be removed and compliant railings and stair nosing striping will be installed at all stair locations. The facility will undergo interior flooring replacement, excluding hardwood floor areas, baseboards will be replaced throughout the building and all kitchenettes will be removed.

Restroom improvements include full remodeling of four (4) multi-user restrooms and one (1) single-user gender neutral restroom to meet ADA requirements. Additional work includes painting all interior painted surfaces, replacing damaged or rotten siding, repainting the exterior and addressing peeling paint conditions. The Humboldt County Agricultural Building Americans with Disabilities Act Modification Project also includes reroofing the entire facility and repairing dry rot within the roofing system. A new accessible path of travel will be established from South Broadway Street to a new public entrance that allows after-hours access to the large meeting room.

The task order with Nichols, Melburg & Rossetto was initiated on November 25, 2024. The Humboldt County Agricultural Building Americans with Disabilities Act Modification Project is estimated to take approximately two hundred eighty (280) calendar days to complete.
