Maintenance Policy- Ambulances

DAILY

All in service ambulances are to be inspected by the on-duty crews each day using the vehicle check out form. This daily inspection includes assessing tire status, engine oil and coolant levels and a visual inspection for any obvious defects.

Any defect, fluid leakage, or other concern will be recorded on a maintenance memo and conveyed to maintenance manager. The maintenance memo shall include the vehicle number, odometer reading, a description of the problem, and anything done to correct the problem. If any condition has been previously noted on a maintenance form, but has not been corrected, another maintenance form shall be completed (unless a notice has been distributed via email detailing the expected resolution of the problem and the operational status of the unit involved).

If any deficiency is noted that effects the operational status or safety of the vehicle, management shall be notified immediately and the vehicle placed out of service.

COMMUNICATION

An email will be distributed to all field personnel any time a vehicle is removed from service or if a problem persists but in the estimation of management and the involved mechanics does not affect the operational status of the unit. An email notice will go out when a vehicle is returned to service or a known issue is resolved.

PREVENTATIVE MAINTENANCE

An oil change and safety inspection performed by a qualified mechanic utilizing the Preventative Maintenance Inspection (PMI) form will be performed at predefined intervals. That PMI service will be Type A every 5,000 miles, Type B every 15,000 miles, and Type C every 30,000 miles as detailed on the PMI form.

SERVICE PROVIDER

The service provider for all units for routine servicing will be Central Ave Service, 2787 Central Ave. McKinleyville, 707-839-8337.

The service provider listed above will track and record the maintenance performed and recommend additional maintenance as indicated. For vehicles covered under a manufacturer's warranty, repairs will be scheduled through the applicable dealership.

Radio Communication Equipment

AMBULANCE

VHF – 160 channel programmable radio. Each radio is programmed with a wide variety of channels allowing for direct communication with law enforcement, fire, and various other agencies.

UHF – MedNet programmable radio. The mednet radio is programmed for communication with all surrounding receiving hospital facilities.

HAND HELD RADIOS

On-duty personnel have available to them a Kenwood portable VHF radio with 32 channels programmed like the mobile radios. The company maintains 8 of these portable radios.

REPEATERS

The company maintains a VHF repeater located at Mad River Community Hospital, and VHF radios at our stations in McKinleyville and Arcata. The company also maintains a base radio on Mt. Pierce which is linked via microwave to the Cal Fire Command Center in Fortuna.

COMMUNICATION VENDOR

All radio equipped has been supplied by Silke Communications. They maintain records of the specific radio equipment in service and provide maintenance and repair services.

LOGIS DEVICE

Each on-duty ambulance EMT/Paramedic carries a mobile Logis device similar to a cellular phone which is linked via modem to the communications center. This is the primary method for dispatching and tracking of crews, and communication between on duty crews and the communication center.

Quality Management practices and policies

Arcata-Mad River Ambulance maintains a continuous quality improvement program and makes quarterly reports to the North Coast EMS Agency addressing personnel, equipment and supplies, facilities, pre-hospital care reporting, public education and risk management. Patients care reports are peer reviewed for adherence to company developed standards and North Coast EMS policies. Additional quality standards are addressed in our Exclusive Operating Area Agreement with North Coast EMS. That agreement requires tracking of multiple response time standards and quarterly reporting of items including standbys, mutual aid responses and public education activities.

Staffing and Hiring Policies

The hiring of field personnel requires the applicant to complete an on-line application, verify current certification as an EMT, or license as a paramedic, submit a driver record evidenced by CA DMV motor vehicle report which meets company and insurance standards, and hold a current Ambulance Driver's Certificate and CPR card. The company is a federal equal opportunity employer. All successful applicants must pass a pre-employment physical exam and pass a drug test.

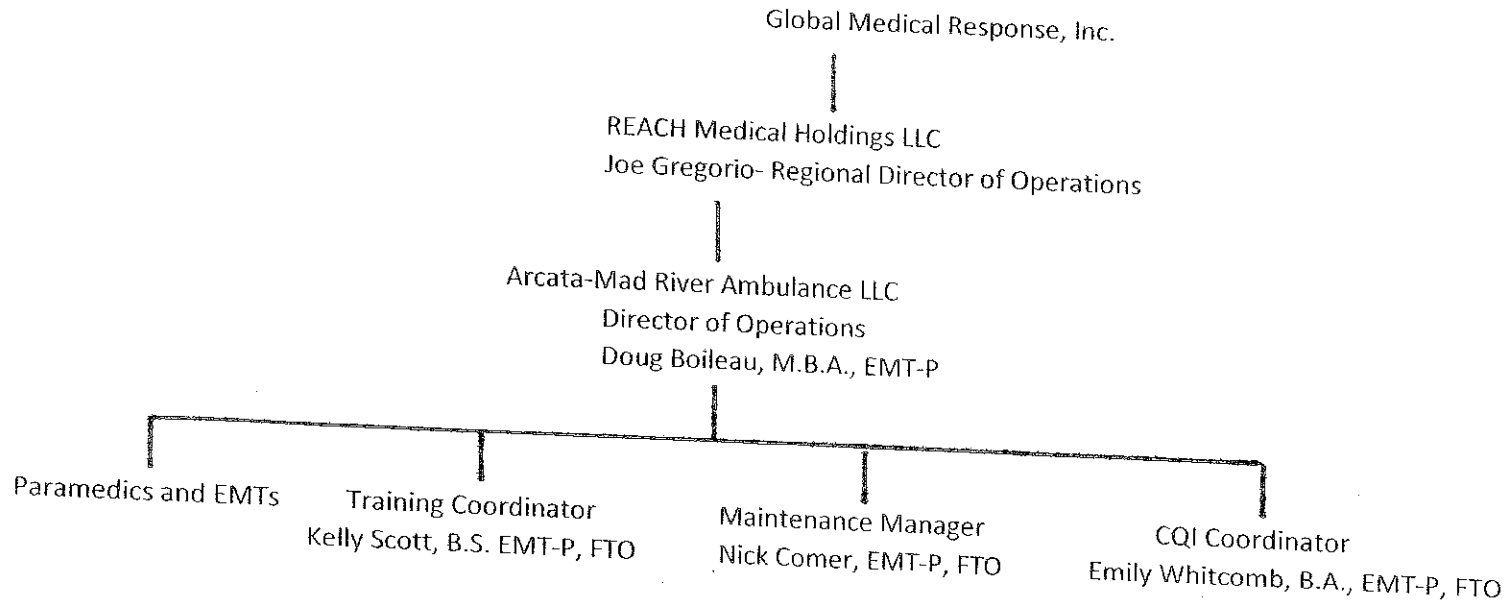

All new employees complete a minimum 72 hour orientation and training program as a third person with an on-duty crew. Successful completion of that program is verified by completion of an orientation checklist. For paramedic new hires, the NCEMS required accreditation checklist is included in the above training. Employees are required to complete a wide variety of training programs within 3 months of hire.

All emergency response ambulances are staffed 24/7 at the Advanced Life Support level by a two person crew consisting of at least one paramedic and one EMT. Crews staffed by two paramedics are common.

Organization Chart of Management Staff – Please see attached organizational chart.

Experience of the applicant/knowledge or involvement in the Humboldt County EMS System – Please see attached resume of company director.
