Greetings,

I am a resident directly across from the proposed Santos subdivision. We were told that McKinleyville Ave would be routed to School Road through the subdivision and into the round about on School Road. Is this still part of the plan? And why hasn't it happened yet? Traffic has already been increasing on School Road and will only get worse with the new BMX park and 45 new houses. Importantly, we and other neighbors were told the medians on School Road were temporary until PG&E could remove the telephone poles.. well, they have and the medians are still there. We cannot enter our driveway without stopping traffic ( and praying not to get rear ended) because of these medians. Why are they still there? They are a hazard and unsightly as well. I encourage you drive on School Road to enter our driveway.

Thank you for addressing our concerns,

Cecelia Krueger-Novak
