Re: Letter of Support

Dear Nordic Aquafarms, Inc.,

The County of Humboldt Board of Supervisors is pleased to support Nordic Aquafarms' project for the construction of a new RAS facility on the Samoa Peninsula.

The County is committed to exploring options to improve infrastructure on the Samoa Peninsula with other invested public agencies, especially where such infrastructure aligns with the Board's strategic framework, and the County's Comprehensive Economic Development Strategy (CEDs).

The County of Humboldt is committed to improving its local economy, as noted in our Strategic Framework, by diversifying the local economy with living wage jobs through value added industries, such as the aquaculture industries and for projects like those proposed by Nordic Aquafarms.

Sincerely,

Rex Bohn, Chair
Humboldt County Board of Supervisors
