Dear mr Turner and BOS and planning commission.

I live at 275 Tim mullen rd. I have lived here for 30 years, and I am very concerned about this proposed cannabis commercial operation.

1. Water. There are currently over 10 commercial operations on the kneeland ridge, Barry rd and Tim Mullen rd. We have seen decreases in water flow in our wells and springs for the last 6 years. My Spring has dried up for the first time in 30 years starting 6 years ago. and the spring here is slowing down earlier and earlier each year. The Aquifer that supplies Kneeland homes is affected by more and more use by these commercial operations. Drought and Commercial cannabis farms are negatively affecting the home owners of Kneeland. Commercial operations mixed with Residential homes.
2. Increased traffic can make Kneeland roads less safe. again, employees of commercial operations tend to be in a hurry to get to work and then home. i see it often.
3. What are the negative effects on our property values?? We have chosen to live in this country setting and our homes are a major investment.
4. Sounds of a generator humming would be wrong for neighbors who live close by and have to hear this intrusion into their peaceful kneeland property. Also the possible sight of an army of water storage containers. visual blight to neighbors depending on where placed.
5. Higher chance of criminal activity in the form of home invasion. Look at petrolia and their problems in the last 4 years.

Thank you. Nancy Stephenson and i, Martin Dodd stant opposed to this proposed commercial cannabis operation at 1011 Tim Mullen rd, Kneeland calif.

Sincerely, Martin Dodd and Nancy Stephenson
