We do not have a for sure timeline it can be anywhere from two weeks to a month before we get the warrant approved by the CEU Manager, County Counsel, and the courts. We can write Air Quality Control into the warrant and it will be up to your director if anyone will go.. We will let you know when we are serving the warrant.

Hi Danielle,

Thanks for checking in. The last complaint we received for that address was on October 28th. I'm still interested in our agency being written into the warrant, but would like to first get clearance from our director before proceeding. May I ask what your timetable is?

Morning Winslow,

I want to verify that you would like to be written into our warrant for Glenda property at 2225/2227 Walker Ave? Are you still receiving complainants of her burning trash on her property?

Afternoon Winslow,

I am the officer working this case. I have training 8-12 every morning for the next two weeks. I will be in the office in the afternoons after 1pm if you would like to talk about this case. So far I have tried to work with the owner to allow me onto the property and she has refused. I am currently working on a search warrant for this property unfortunately this case is very old and has had many officer working on it so I am having to go through all the years of documentation.

Subject: Burn Complaint - McKinleyville

Hello Shauna,

I'm writing regarding a burn complaint we received today. The alleged illegal burning activity occurred at 2225 Walker Avenue in McKinleyville. The complainant mentioned that Code Enforcement has been working with the property owner on cleanup. Sounds like perhaps the owner is burning as a part of that cleanup activity. Complainant also stated that the property owner recently denied entry to Code Enforcement. Just wanted to touch base with you before we do any further investigation. If you have a few minutes to talk over the phone, I'd appreciate it. You can reach me at either of the numbers below.

Thanks,

Winslow
