

CONDITIONS OF APPROVAL

APPROVAL OF THE PROJECT IS CONDITIONED ON THE FOLLOWING TERMS AND REQUIREMENTS:

A. General Conditions:

1. Prior to commencing the expanded cultivation, manufacturing, and nursery operations entitled by this Permit, the permittee shall provide documentation demonstrating enrollment State Water Board General Order No. WQ 2019-0001-DWQ by providing a copy of the Notice of Applicability and a Site Management Plan.
2. Prior to commencing the expanded cultivation entitled by this Permit, the permittee shall install metering devices to track water usage from all irrigation water sources including the outlet of the rainwater catchment pond. See also Condition of Approval B3.
3. Prior to expanding the cultivation area entitled by this Permit beyond 39,000 square feet of cultivation area, the permittee shall either:
 - a. Establish 37,925 square feet of rainwater catchment surface and an additional 20,000 gallons of water storage capacity. Rainwater catchment surfaces shall be plumbed to fill the rainwater pond or other approved storage.
 - OR
 - b. Establish through water use records that the cultivation operations including the 7,600 square foot commercial nursery may be sustained at a rate of 4.6 gallons of water per square foot of cultivation area.
4. Prior to commencing the manufacturing activities entitled by this permit, the permittee shall obtain a final Lake and Stream Alteration Agreement (LSAA) that includes the water diversion from the spring and use of the well. The use of the spring and well is limited to the project's manufacturing and domestic water needs and subject to any applicable forbearance period from CDFW and/or the Division of Water Rights. A water meter shall be installed, and the permittee shall maintain records of monthly and annual water withdrawals from the spring and well as required by the LSAA and shall provide evidence of appropriate additional water storage as necessary to comply with any applicable forbearance period. Evidence of an LSAA and water right, as well as installation of appropriate water storage for forbearance shall be demonstrated to the Planning and Building Department prior to commencing operations.
5. Prior to commencing the manufacturing activities entitled by this permit, the permittee shall install a water meter at the wellhead and at the spring box and maintain records of monthly and annual water withdrawals from the well. The combined annual withdrawals from the spring and well shall not exceed 180,000 gallons per year.

6. Prior to commencement of the development of the project, the permittee shall flag the perimeter of the sensitive plant community (Elymus Glaucus) and shall prevent project related disturbances to the plant community for the life of the project.
7. The applicant is responsible for obtaining all necessary County and State permits and licenses, and for meeting all requirements set forth by other regulatory agencies.
8. The applicant is required to pay for permit processing on a time and material basis, as set forth in the schedule of fees and charges as adopted by ordinance of the Humboldt County Board of Supervisors. The Planning and Building Department will provide a bill to the applicant after the decision. Any and all outstanding planning fees to cover the processing of the application to decision by the Planning Commission shall be paid to the Humboldt County Planning Division, 3015 "H" Street, Eureka.
9. The applicant is responsible for costs for post-approval review for determining project conformance with conditions. A deposit is collected to cover the staff review. Permit conformance with conditions must be demonstrated prior to release of building permit or initiation of use, and at the time of annual inspection. A conformance review deposit, as set forth in the schedule of fees and charges as adopted by ordinance of the Humboldt County Board of Supervisors (currently \$1000), shall be paid within sixty (60) days of the effective date of the permit or upon filing of the Compliance Agreement (where applicable), whichever occurs first. Payment shall be made to the Humboldt County Planning Division, 3015 "H" Street, Eureka.
10. A Notice of Determination (NOD) will be prepared and filed with the County Clerk for this project in accordance with the State CEQA Guidelines. The Department will file the NOD and will charge this cost to the project.
11. The applicant shall secure permits for all structures related to the existing cannabis cultivation and other commercial cannabis activity, including the existing greenhouses, the existing multi-use building, the existing shipping containers, and any noise containment and storage structures as necessary. The plans submitted for building permit approval shall be consistent with the project description and the approved project site plan.
12. Prior to operations of PLN 2020-16224, the applicant shall secure permits for all proposed structures and grading related to the cannabis cultivation and other commercial cannabis activity. A letter or similar communication from the Building Division verifying that all structures related to cannabis cultivation are permitted will satisfy this condition.

13. The approved building plans shall meet all applicable fire codes, including fire suppression infrastructure requirements deemed necessary for the project by the Building Inspection Division. Sign-off on the Occupancy Permit by the Building Division shall satisfy this requirement.
14. The applicant shall submit a comprehensive Light Pollution Prevention Plan for the project including all measures necessary to adhere to International Dark Sky Association standards as set forth in the CCLUO, demonstrating that the proposed project would not deliver or have the potential to deliver light pollution, during the hours of sunset to sunrise, affecting fish and/or wildlife directly or from a distance. The plan shall include information about any outdoor lighting utilized and measures to down-shield this lighting. The plan shall be submitted to the satisfaction of the Planning Division within six months of the effective date of this permit, or prior to use of lighting, whichever occurs first.
15. Prior to initiating commercial cannabis cultivation or associated activities the applicant shall obtain a Business License from the Humboldt County Tax Collector.
16. If grading is required for any future development on the site, the applicant is required to obtain a permit from the Building Inspection Division and the North Coast Air Quality Management District (NCAQMD). Dust control practices during construction and grading shall achieve compliance with NCAQMD fugitive dust emission standards.
17. The applicant shall execute and file with the Planning Division the statement titled, "Notice and Acknowledgment regarding Agricultural Activities in Humboldt County," ("Right to Farm" ordinance) as required by the HCC and available at the Planning Division.
18. The existing driveway that will serve as access for the proposed project that connects to the County road shall be improved to current standards for a commercial driveway. An encroachment permit shall be issued by the Department of Public Works prior to commencement of any work in the County maintained right of way.
19. The driveway onto the County Road shall be maintained in accordance with County Code Section 341-1 (Sight Visibility Ordinance). This condition shall be completed to the satisfaction of the Department of Public Works prior to commencing operations, final sign-off for a building permit, or Public Works approval for a business license.
20. Commercial nursery, manufacturing, and processing activities must be supported by an approved onsite wastewater treatment system (OWTS) sized to accommodate peak flow rates for both commercial and domestic wastewater demands of employee and manufacturing needs. Seasonal/outdoor cultivation sites may be supported by portable toilets. The permittee must obtain a permit for, and install, an approved OWTS to

support onsite manufacturing and either install approved OWTS or provide portable toilets to cultivation areas.

21. The permittee shall be compliant with the County of Humboldt's Certified Unified Program Agency (CUPA) requirements regarding hazardous materials. A written verification of compliance shall be required before any provisional permits may be finalized. Ongoing proof of compliance with this condition shall be required at each annual inspection in order to keep the permit valid.
22. The applicant shall enroll to receive power through the Redwood Coast Energy Authority (Re-Power Plus) program or a suitable equivalent source, subject to the approval of the Planning and Building Department.
23. The cultivation area for PLN-2020-16224 shall be limited to 43,560 square feet until the Zoning Clearance Certificate PLN-12698-ZCC is approved.

B. Ongoing Requirements/Development Restrictions Which Must be Satisfied for the Life of the Project:

1. The applicant shall implement the Inadvertent Discovery Protocol. If cultural resources are encountered during construction activities, the contractor onsite shall cease all work in the immediate area and within a 50-foot buffer of the discovery location. A qualified archaeologist and the appropriate Tribal Historic Preservation Officer(s) are to be contacted to evaluate the discovery and, in consultation with the applicant and the lead agency, develop a treatment plan in any instance where significant impacts cannot be avoided. Prehistoric materials may include obsidian or chert flakes, tools, locally darkened midden soils, groundstone artifacts, shellfish or faunal remains, and human burials. If human remains are found, California Health and Safety Code 7050.5 requires that the County Coroner be contacted immediately at 707-445-7242. If the Coroner determines the remains to be Native American, the Native American Heritage Commission will then be contacted by the Coroner to determine appropriate treatment of the remains pursuant to Public Resources Code (PRC) Section 5097.98. Violators shall be prosecuted in accordance with PRC Section 5097.99.
2. If the rainwater catchment pond is not filled to capacity prior to the growing season (1,097,350 gallons) the cultivation area shall be reduced proportionally to the deficit.
3. The applicant shall utilize water meters to demonstrate that there is sufficient water supply to meet the demands of the project. The water use for cultivation is limited to the maximum estimated amount described in the Operations Plan and annual water use records shall be provided prior to or during the annual inspection.

4. The combination of background, generator and greenhouse fan or other operational equipment created noise must not result in the harassment of Northern Spotted Owl species as required to meet the performance standards for noise. The combined noise levels measured at 100 feet or the edge of habitat, whichever is closer, shall be at or below 50 decibels. Conformance will be evaluated using current auditory disturbance guidance prepared by the United State Fish and Wildlife Service, and further consultation where necessary. A building permit shall be obtained should any structures be necessary for noise attenuation.
5. All artificial lighting shall be fully contained within structures such that no light escapes (e.g., through blackout curtains). Structures shall be enclosed between 30 minutes prior to sunset and 30 minutes after sunrise to prevent disruption to crepuscular wildlife. Security lighting shall be motion activated and comply with the International Dark-Sky Association standards and Fixture Seal of Approval Program; see: <https://www.darksky.org/our-work/lighting/lighting-for-citizens/lighting-basics/>. Standards include but are not limited to the following, 1) light shall be shielded and downward facing, 2) shall consist of Low-Pressure Sodium (LPS) light or low spectrum Light Emitting Diodes (LED) with a color temperature of 3000 kelvins or less and 3) only placed where needed.
6. Should the Humboldt County Planning Division receive complaints that the lighting or noise is not complying with the standards listed above in items B.1. and B.2., within ten (10) working days of receiving written notification that a complaint has been filed, the applicant shall submit written verification that the lights' shielding, and alignment and noise levels have been repaired, inspected, and corrected as necessary.
7. The use of synthetic netting for purposes of erosion control is prohibited. To minimize the risk of wildlife entrapment, the applicant shall not use any erosion control materials that contain synthetic (e.g., plastic or nylon) netting, including photo- or biodegradable plastic netting. Geotextiles, fiber rolls, and other erosion control measures shall be made of loose-weave mesh, such as jute, hemp, coconut (coir) fiber, or other products without welded weaves. If the permittee uses synthetic netting for trellising they shall follow Best Management Practices (BMPs) for responsible storage, disposal, and use that minimizes the potential for wildlife entrapment.
8. All refuse shall be always contained in wildlife proof storage containers and disposed at an authorized waste management facility.
9. Should any wildlife be encountered during work activities, the wildlife shall not be disturbed and shall be allowed to leave the work site unharmed.
10. The use of anticoagulant rodenticide is prohibited.

11. The noise from operations shall not exceed 53.2, 51, 50.5 at the west, south, and east property lines respectively for the life of the project.
12. The applicant shall maintain enrollment in Redwood Coast Energy Authority (Re-Power Plus) or a suitable equivalent to meet the renewable power source requirement for open- air cultivation and shall provide copies of energy bills confirming enrollment at each annual inspection to keep the permit valid.
13. The operator shall provide information to all employees about the potential health impacts of cannabis use on children. Information shall be provided by posting the brochures from the Department of Health and Human Services titled “Cannabis Palm Card” and “Cannabis Rack Card.” This information shall also be provided to all employees as part of the employee orientation.
14. All components of the project shall be developed, operated, and maintained in conformance with the Project Description, the approved Site Plan, the Plan of Operations, and these conditions of approval. Any changes shall require modification of this permit except where consistent with Humboldt County Code Section 312-11.1, Minor Deviations to Approved Plot Plan. When offsite processing is chosen to be the preferred method of processing, this permit shall be modified to identify the offsite licensed facility.
15. Cannabis cultivation and other commercial cannabis activity shall be conducted in compliance with all laws and regulations as set forth in the CCLUO and Medicinal and Adult-Use Cannabis Regulation and Safety Act (MAUCRSA), as applicable to the permit type.
16. If operating pursuant to a written approved compliance agreement, the permittee shall abate or cure violations at the earliest feasible date, but in no event no more than two (2) years from the date of issuance of a provisional clearance or permit. Permittee shall provide plans for curing such violations to the Planning and Building Department within one (1) year of issuance of the provisional clearance or permit. If good faith effort toward compliance can be shown within the two years following the issuance of the provisional clearance or permit, the Department may, at the discretion of the Director, provide for extensions of the provisional permit to allow additional time to meet the outstanding requirements.
17. The permittee shall have possession of a current, valid required license, or licenses, issued by any agency of the State of California in accordance with MAUCRSA, and regulations promulgated thereunder, as soon as such licenses become available.
18. The permittee shall be in compliance with all statutes, regulations, and requirements of the California State Water Resources Control Board and the Division of Water Rights, at

a minimum to include a statement of diversion of surface water from a stream, river, underground stream, or other watercourse required by Water Code Section 5101, or other applicable permit, license, or registration, as applicable.

19. The permittee shall ensure confinement of the area of cannabis cultivation, processing, manufacture, or distribution to the locations depicted on the approved site plan. The commercial cannabis activity shall be set back at least 30 feet from any property line and 600 feet from any school, school bus stop, church or other place of religious worship, or tribal cultural resources, except where a reduction to this setback has been approved pursuant to Section 314-55.4.6.4.4 of the CCLUO.
20. The permittee shall maintain enrollment in Tier 1 or 2, certification with North Coast Regional Water Quality Control Board (RWQCB) Order WQ 2019-0001-DWQ, if applicable, or any substantially equivalent rule that may be subsequently adopted by the County of Humboldt or other responsible agency.
21. The permittee shall comply with the terms of the Final Lake or Streambed Alteration Agreement, as well as any subsequent amendments, obtained from the California Department of Fish and Wildlife.
22. The permittee shall comply with the terms of a less-than-3-acre conversion exemption or timberland conversion permit, approved by the California Department of Forestry and Fire Protection (CAL FIRE), if applicable.
23. The permittee shall consent to an annual on-site compliance inspection, with at least 24 hours prior notice, to be conducted by appropriate County officials during regular business hours (Monday through Friday, 9:00 a.m. to 5:00 p.m., excluding holidays).
24. The permittee shall pay all applicable fees for application review to ensure conformance with conditions and annual inspection fees.
25. Fuel shall be stored and handled in compliance with applicable state and local laws and regulations, including the County of Humboldt's Certified Unified Program Agency (CUPA) program, and in such a way that no spillage occurs.
26. Fertilizer, pesticide, fungicide, rodenticide, or herbicide shall be properly stored, handled and used in accordance with applicable regulations.
27. The master logbooks maintained by the applicant to track production and sales shall be maintained for inspection by the County.

28. The permittee shall pay all applicable taxes as required by the Humboldt County Commercial Marijuana Cultivation Tax Ordinance (Humboldt County Code Section 719-1 et seq.).

Performance Standards for Cultivation and Processing Operations

29. Pursuant to Business and Professions Code section 26051.5(a)(8), an applicant seeking a cultivation license shall “provide a statement declaring the applicant is an ‘agricultural employer,’ as defined in the Alatorre-Zenovich-Dunlap-Berman Agricultural Labor Relations Act of 1975 (Part 3.5 commencing with Section 1140) of Division 2 of the Labor Code), to the extent not prohibited by law.”
30. Cultivators shall comply with all applicable federal, state, and local laws and regulations governing California Agricultural Employers, which may include federal and state wage and hour laws, Cal/OSHA, OSHA, the California Agricultural Labor Relations Act, and the Humboldt County Code (including the Building Code).
31. Cultivators engaged in processing shall comply with the following Processing Practices:
- a. Processing operations must be maintained in a clean and sanitary condition including all work surfaces and equipment.
 - b. Processing operations must implement protocols which prevent processing contamination and mold and mildew growth on cannabis.
 - c. Employees handling cannabis in processing operations must have access to facemasks and gloves in good operable condition as applicable to their job function.
 - d. Employees must wash hands sufficiently when handling cannabis or use gloves.
32. All persons hiring employees to engage in commercial cannabis cultivation and processing shall comply with the following Employee Safety Practices:
- a. Cultivation operations and processing operations must implement safety protocols and provide all employees with adequate safety training relevant to their specific job functions, which may include:
 - (1) Emergency action response planning as necessary;
 - (2) Employee accident reporting and investigation policies;
 - (3) Fire prevention;
 - (4) Hazard communication policies, including maintenance of material safety data sheets (MSDS);
 - (5) Materials handling policies;
 - (6) Job hazard analyses; and
 - (7) Personal protective equipment policies, including respiratory protection.

- b. Cultivation operations and processing operations must visibly post and maintain an emergency contact list which includes at a minimum:
 - (1) Operation manager contacts;
 - (2) Emergency responder contacts; and
 - (3) Poison control contacts.
- c. At all times, employees shall have access to safe drinking water and toilets and handwashing facilities that comply with applicable federal, state, and local laws and regulations. Plumbing facilities and water source must be capable of handling increased usage without adverse consequences to neighboring properties or the environment.
- d. Onsite housing provided to employees shall comply with all applicable federal, state, and local laws and regulations.

33. All cultivators shall comply with the approved processing plan as to the following:

- a. Processing practices
- b. Location where processing will occur
- c. Number of employees, if any
- d. Employee Safety Practices
- e. Toilet and handwashing facilities
- f. Plumbing and/or septic system and whether or not the system is capable of handling increased usage
- g. Drinking water for employees
- h. Plan to minimize impact from increased road use resulting from processing
- i. Onsite housing, if any

34. Term of Commercial Cannabis Activity Special Permit. Any Commercial Cannabis Activity Permit issued pursuant to the CCLUO shall expire one (1) year after date of issuance, and on the anniversary date of such issuance each year thereafter, unless an annual compliance inspection has been conducted and the permittees and the permitted site have been found to comply with all conditions of approval.

35. If the inspector or other County official determines that the permittees or site do not comply with the conditions of approval, the inspector shall serve the permit holder with a written statement identifying the items not in compliance, and the action that the permit holder may take to cure the noncompliance, or file an appeal within ten (10) days of the date that the written statement is delivered to the permit holder. Personal delivery or mailing the written statement to the mailing address listed on the application by regular mail, plus three (3) days after date of mailing, shall constitute delivery. The

permit holder may request a re-inspection to determine whether or not the permit holder has cured all issues of noncompliance. Failure to request re-inspection or to cure any items of noncompliance shall terminate the permits, immediately upon the expiration of any appeal period, or final determination of the appeal if an appeal has been timely filed pursuant to Section 314-55.4.5.7 of the CCLUO.

36. Permit Renewals to Comply with Updated Laws and Regulations. Permit renewal is subject to the laws and regulations effective at the time of renewal, which may be substantially different than the regulations currently in place and may require the submittal of additional information to ensure that new standards are met.
37. Acknowledgements to Remain in Full Force and Effect. Permittee acknowledges that the County reserves the right to reduce the size of the area allowed for cultivation under any clearance or permit issued in accordance with this section in the event that environmental conditions, such as a sustained drought or low flows in the watershed in which the cultivation area is located, will not support diversions for irrigation.
38. Transfers. Transfer of any leases or permits approved by this project is subject to the review and approval of the Planning Director for conformance with CCLUO eligibility requirements and agreement to permit terms and acknowledgments. The fee for required permit transfer review shall accompany the request. The request shall include the following information:
 - a. Identifying information for the new owner(s) and management as required in an initial permit application;
 - b. A written acknowledgment by the new owner in accordance as required for the initial permit application;
 - c. The specific date on which the transfer is to occur;
 - d. Acknowledgement of full responsibility for complying with the existing permit; and
 - e. Execution of an Affidavit of Non-diversion of Commercial Cannabis.
39. Inspections. The permit holder and subject property owner are to permit the County or representative(s) or designee(s) to make inspections at any reasonable time deemed necessary to assure that the activities being performed under the authority of this permit are in accordance with the terms and conditions prescribed herein.

Informational Notes:

1. Pursuant to Section 314-55.4.6.5.7 of the CCLUO, if upon inspection for the initial application, violations of any building or other health, safety, or other state or county statute, ordinance, or regulation are discovered, the Planning and Building Department may issue a provisional clearance or permit with a written approved Compliance

Agreement. By signing the agreement, the permittee agrees to abate or cure the violations at the earliest opportunity but in no event more than two (2) years after the date of issuance of the provisional clearance or permit. Plans for curing the violations shall be submitted to the Planning and Building Department by the permittee within one (1) year of the issuance of the provisional certificate or permit. The terms of the compliance agreement may be appealed pursuant to Section 314-55.4.5.7 of the CCLUO.

2. The provisional permit approval shall expire and become null and void at the expiration of one (1) year after all appeal periods have lapsed (see "Effective Date"), except where the Compliance Agreement per Condition of Approval A5 has been executed and the corrective actions pursuant to the agreement are being undertaken. Once building permits have been secured and/or the use initiated pursuant to the terms of the agreement, the use is subject to the Permit Duration and Renewal provisions set forth in Conditions of Approval of the Ongoing Requirements/Development Restrictions, above.
