Record No.: PLN-2024-19060
Eureka area

A two-year extension to a previously approved Lot Line Adjustment and Conditional Use Permit (PLN-2024-16400) to allow for redevelopment of three commercially zoned parcels with a proposed Mini Storage Center. The previous approval included a General Plan Amendment and Zone Boundary Adjustment whereby the Apartment Professional (R-4) zone was reduced and the Neighborhood Commercial (C-1) zone increased by approximately 30,000 square feet, as well as applying a Qualified (Q) zone to the properties allowing for multiple dwellings; this rezoning action has been completed. The previously approved Lot Line Adjustment would result in two parcels of approximately 2.1 acres (Parcel A) and 5,500 ft.² (Parcel B). Proposed Parcel A was approved to be redeveloped with approximately 37,000 square feet of mini-storage units with the Conditional Use Permit. The approved project included a wetland setback reduction for one of the storage buildings and a Wetland Buffer Replanting Plan. Redevelopment of the site as proposed requires removal of up to 25 mature redwood trees as well as minor grading and fill, including engineered fill of a small area (< 2,000 square feet) beyond the break in slope.

The site is developed with two single family residences that will remain on proposed Lots 1 and 2, respectively. Pursuant to Section 325-9 of the Subdivision Regulations, an exception request was submitted to allow a reduced right of way width. The parcels will be served with community water and sewer provided by the McKinleyville Community Services District.

9. Collins/Goldstein - Parcel Map Subdivision Extension
Assessor Parcel Numbers (APN) 509-061-025
Record No.: PLN-2024-19031
McKinleyville area

A two-year extension of a previously approved Minor Subdivision and Planned Development Permit (PLN-2022-17740) of an approximately 10-acre parcel into four parcels of approximately 20,000 square feet, 30,830 square feet, 36,989 square feet and 7.97 acres. A Planned Development Permit was approved to allow significantly smaller parcel sizes and clustering of development along the road frontage. This in turn ensures that sufficient area exists to accommodate future residential development observing standard setbacks from riparian and wetland areas associated with Mill Creek, which crosses through the parcel. The site is currently vacant and will be served with community water and sewer provided by the McKinleyville Community Services District. The majority of the parcel is forested with the exception of the northern portion, which was cleared as part of a recent less than 3-acre conversion completed in late 2021. This same area is targeted to host future residential development following the subdivision.

A Conditional Use Permit is being requested to authorize construction and operation of a 2.8-megawatt solar photovoltaic power generation facility to produce renewable energy for the power grid. The automated facility would occupy an approximately 11-acre fenced area with arrays of solar panels, single-axis trackers, string inverters, transformers, and associated electrical equipment. Approximately 300 feet of new road is proposed to be developed to connect with a new driveway encroachment along Highway 36, approximately 70 feet west of the existing driveway encroachment. A power line and poles will be run to the site along the driveway route, to allow interconnection to the nearby 12 kilovolt power distribution line located within the highway right-of-way near the driveway encroachment. Approximately 7 acres of the site will be occupied by the solar array. New impervious surfaces totaling approximately 1,500 square feet will be limited to the piles supporting the panel arrays and concrete pads below electrical equipment (approx. 1,060 ft.) Areas beneath the panel will remain vegetated and the project sponsor will maintain continual operation of agricultural uses on the property, including but not limited to sheep grazing, the keeping of honeybees, or planting of row crops, on a rotational basis. Site construction is expected to take approximately 4 months and operation will run for a minimum of 20 years under a power purchase agreement with Redwood Coast Energy Authority (RCEA). Maintenance staff are expected to visit the site on a weekly basis following the start of operation.

A motion was made by Commissioner Lorna McFarlane, seconded by Commissioner Jerome Qiriazzi to adopt Resolution 24-068 and adopt the Draft Initial Study and Mitigated Negative Declaration prepared for the North Coast Highway Solar project; and finds the proposed project complies with the General Plan and Zoning Ordinance; and approves the Conditional Use Permit subject to the Conditions of Approval and Mitigation Monitoring and Reporting Program, with corrections to the

zoning reference in the resolution and modified conditions presented by staff.

12. Caltrans Boyd Draw Bike Path Coastal Development Permit and Conditional Use Permit

Assessor Parcel Numbers (APN): Portion of 507-283-009, County Right of Way, State Highway 101 Right of Way

Record No.: PLN-2024-18945

Arcata area

A Coastal Development Permit (CDP) for the construction of an approximately eight-foot-wide bike path to connect Heindon Road with Wymore Road at the Boyd Draw Bridge. The planned bike path is approximately 470 feet long and will provide a safe crossing under U.S. 101. The project would require right of way acquisition of approximately 0.28 acres of APN 507-283-009 along the west side of U.S. 101. Per the California Coastal Act, land divisions or lot splits brought about in connection with the purchase of land by a public agency for public recreational use is not considered development, and therefore the acquisition of the right of way does not require a Coastal Development Permit. Construction of the path would involve vegetation and rock slope protection removal, fence installation, grading work, and placement of imported borrow, aggregate base, and hot mix asphalt. In addition to the bike path, a new permanent gravel access road, approximately 380 feet long and 12 feet wide, would be constructed on the property affected by right of way acquisition. A Conditional Use Permit is also required for a proposed use not directly a part of agricultural production of food or fiber on the acquired portion of APN 507-283-009. The California Department of Transportation

(Caltrans) is the lead agency under CEQA. Caltrans' determination is that the project is exempt from CEQA review pursuant to Section 15061(b)(3) of the CEQA Guidelines.

A motion was made by Commissioner Iver Skavdal, seconded by Commissioner Sarah West to adopt Resolution 24-070 which concurs with the Lead Agency that the project is exempt from environmental review pursuant to Section 15061 (b) 3 of the State CEQA Guidelines, makes all of the required findings for approval of the Coastal Development Permit and Conditional Use Permit; and approves the Caltrans Boyd Draw Bike Path Coastal Development Permit and Conditional Use Permit subject to the conditions of approval, with added conditions requiring maintenance of existing fencing, lighting in the under pass and that the trail be maintained in a clean and unobstructed manner.

A Conditional Use Permit for 29,938 square feet of existing outdoor commercial cannabis cultivation and 2,400 square feet of existing mixed light commercial cannabis cultivation totaling 32,838 square feet. The project includes 3,160 square feet of ancillary nursery and onsite relocation and restoration of cultivation areas to environmentally superior locations. Estimated annual water use is 220,000 gallons and sourced from rainwater catchment. Water storage is provided by nine 2,500-gallon poly water and a 250,000-gallon pond for a total of 272,500 gallons of storage. Processing, including trimming, will occur on site. Electricity is provided by a solar array with a generator for emergency backup only. A Special Permit is included because the project is within 600 feet of public lands managed for open space.
