RE: Project/Owner: Schneider APN: 516-111-064 Area: Glendale, Blue Lake

CAL FIRE has reviewed this exception request for the following Fire Safe Regulations:

1276.01 Setback

The project proposes to construct a mini storage with a 5' reduced (25') setback on the east and west sides.

Review of the site plan revealed that conditions are as described within the exception request form. Given the structure will be comprised of non-combustible materials with perimeter hardscaping, CAL FIRE can support the approval of this exception request.
