---

Greetings Humboldt County Board of Supervisors,

I feel that Humboldt County should immediately ban the sale and use of Safe and Sane Fireworks.

This is not a good practice for the current condition of the county.

We are approaching another drought and homeowners insurance rates are going through the roof due to wildfires.

I am sorry that some non-profits rely upon these sales for their programs.

Non-profits need to examine other sources for their revenues.

The county as a whole needs to take a stance on the sale and use of Safe and Sane Fireworks.

With tighter budgets on every level of government prudent decisions need to be made.

Can we afford a wildfire caused by Safe and Sane Fireworks? No we cannot.

If we do allow this practice to continue what do we tell the families that lose their homes from a wildfire that is caused by a fireworks.

What about the families that lost family members due to the fire going up a ridge that does not have an auxiliary exit route.

It is more cost effective and the correct course of action by banning the sale and use of Safe and Sane Fireworks.

Thank you for this moment to share my concerns for the county that has been and will continue to be part of my family for 6 generations.

Regards,
