

Hello my name is Nancy Bird and this is in regards to the apartment buildings going in between Picket and Gwin and my husband and I live on the corner of Gwin and Deborah, right in the line of fire of this giant apartment complex. We are not in favor of this going through as the two-story apartment will completely block our beautiful view of the mountains and the trees, also our privacy and for all of our neighbors as well because the two-story will look right into our yards in our home and I'm asking you to send them away and have them come back with a new plan for single level apartments and not one so tall that will completely block our view, actually a lot of McKinleyville's view as well. we are 1046 Deborah Dr. in McKinleyville, right at the corner of Gwin and Deborah. Thank you very much and please reconsider this massive project so close to the senior park.
