STRATEGIC PLAN:

This action supports the following areas of your Board's Strategic Plan.

Area of Focus: Core Services/Other

Strategic Plan Category: 9999 - Core Services/Other

DISCUSSION:

The Agricultural Commissioner's office receives annual subventions from CDFA to offset the local cost of enforcing certain state-mandated programs. In accordance with the California Business and Professions Code Section 13434 and under the authority of the Secretary of CDFA, county staff under the local direction of the Sealer of Weights & Measures will conduct inspections to verify compliance with regulations governing the advertising and labeling of petroleum products offered for sale at service stations, quick-lube shops, and distributors of engine fuels and oils. The local enforcement of petroleum product advertising and labeling requirements creates uniformity in the advertised pricing of petroleum products (gasoline) which is the basis for allowing consumers to make valid price comparisons between retailers. The Sealer's inspector/biologist staff typically conducts petroleum program inspections while at service stations to perform annual retail petroleum dispenser inspections. Per California Business and Professions Code Section 12015, the county agrees to take appropriate enforcement action upon discovery of violations at inspected establishments and will handle violations in accordance with CDFA-DMS guidelines.

The waiver from the provisions of the Nuclear-Free Ordinance is requested because the State of California will not modify its cooperative agreements to accommodate local ordinances.

Narrative Explanation of Financial Impact:

In fiscal year 2024-25, Cooperative Agreement No. 24-0143-000-SA provides a total of \$4,725 for fuels, lubricants, and automotive products compliance inspections. The agreement reimburses Humboldt County \$75 per initial inspection (defined as the first physical inspection in the fiscal year of establishments selling or distributing petroleum and other related automotive products).
