Subject: Vergalia Becker non permitted trailer:
Date: Saturday, July 08, 2017 3:40:17 PM

Writing to you as a home owner at 2555 Cooper Dr. Hydesville, Ca.

We have lived here for 30 years, paid our taxes our children went to Hydesville school.

15 years we have been dealing with the Becker Trailer.

At first we were threatened by Vergalia Becker, she said she would put a lien on our property if we didn't pave Cooper Dr.

As good people we paved Cooper Dr.

Then the Beckers brought a HUGE trailer up to their property! This trailer was said to be temporary as a hardship for the parents.

The trailer wasn't removed! It's been here ever since. They rented it out. The renters went to fast on the road and my husband who is a Veteran found it to be so irritating he went out and told them to slow down. Most people would, but these people were disrespectful to him. They used the F OFF, word.

The thing is about rentals they are hard to control. We have a limited amount of space here. We want the environment to remain peaceful. We don't want any more traffic on our road.

We had the services of an attorney to help get the trailer removed. He was able to have the PGE disconnected. He was so frustrated with not being able to get the county to step up and make Vergalia Becker remove the trailer.

This extra unit or trailer is like a rattle snake! It just keeps biting and biting!

Please make this trailer be removed, I want to have peace in the neighborhood again.

Sincerely,

Greg and Patricia Hudler.
