Eureka, CA 95502

Dear Humboldt Trails Council Board:

On behalf of the Humboldt County Board of Supervisors, we extend our gratitude to the Humboldt Trails Council for facilitating the generous donation from an anonymous donor to provide a mechanized wheelbarrow for developing and improving trails in the McKay Community Forest.

The McKay Community Forest was established along the edges of Eureka, Myrtletown and Cutten for public access and recreation, sustainable timber harvest and watershed and resource conservation. The Community Forest is envisioned as a place that enhances the quality of life for Humboldt County residents and visitors by providing opportunities to experience a diverse, dynamic and productive forest. And through the continued partnership between Humboldt County and the Humboldt Trails Council, members of the community are able to contribute to the stewardship of the Community Forest and develop a connection to the natural world through their volunteer work.

The donation of the mechanized wheelbarrow will give a boost to the ongoing efforts to develop fun, safe and sustainable trails in the McKay Community Forest. The Humboldt County Board of Supervisors greatly appreciates your generosity and your continued support.

Sincerely,

Michelle Bushnell, Chair
Humboldt County Board of Supervisors
