Mr. Lazar,

dB is a logarithmic scale. Raising the limit from 90 to 99 is not a 10 percent increase? 99 is close to 10x louder. It's misleading to say this is a minor change.

Your evaluation of "less than significant" is fundamentally flawed as well as your interpretation of CEQA guidelines. A hearing based on that MND is a ridiculous waste of time and resources.

-Arne R.W. Petersen
