I would like to comment on Project title; "Enchanted Forest, LLC", Record #PLN-13107-CUP. Hearing June 1, 2023. apn#541-114-011

We at Riverwatch would like this permit denied for the following reasons:

The project site sits to close to a designated wild and scenic river and just above a creek that flows into the river. We feel the fertilizer discharge from such a large project and possibly other products associated with such a grow, will find it's way into the water table and consequently into the nearby river and it's recovering salmon habitat. The site sits adjacent to 2 other permitted grows of 10,000 sq.ft. each. The accumulated impact of another 30,000 sq. ft. would be just to much for the water table. At the very least, the project should be limited to 10,000 sq. ft.

Sincerely, Jim Delaney  
President of "River Watch"  
Willow Creek, Ca.
