

**RESOLUTION OF THE PLANNING COMMISSION
OF THE COUNTY OF HUMBOLDT**

Resolution Number: 24-

Record Number: PLN-12171-CUP

Assessor's Parcel Number: 217-271-002

Resolution by the Planning Commission of the County of Humboldt certifying compliance with the California Environmental Quality Act and conditionally approving the Overland Road, LLC Conditional Use Permit and Special Permit.

WHEREAS, Overland Road, LLC provided an application and evidence in support of approving a Conditional Use Permit for 11,700 square feet of existing mixed light and 4,050 square feet of existing full sun commercial cannabis cultivation and a Special Permit for restoration; and

WHEREAS, the lead agency, prepared an Addendum to the Mitigated Negative Declaration (MND) prepared for the Commercial Medical Land Use Ordinance (CMMLUO) adopted by the Humboldt County Board of Supervisors on January 26, 2016. The proposed project does not present substantial changes that would require major revisions to the previous Mitigated Negative Declaration. No new information of substantial importance that was not known and could not be known at the time was presented as described by §15162(c) of CEQA Guidelines; and

WHEREAS, the Humboldt County Planning Commission held a duly-noticed public hearing on August 1, 2024 and reviewed, considered, and discussed the application for a Conditional Use Permit and reviewed and considered all evidence and testimony presented at the hearing.

Now, THEREFORE BE IT RESOLVED, that the Planning Commission makes all the following findings:

- 1. FINDING:** **Project Description:** A Conditional Use Permit for 11,700 square feet of existing mixed light and 4,050 square feet of existing full sun commercial cannabis cultivation. Ancillary nursery uses will not be separate and occur within an existing cultivation greenhouse. Annual water usage is estimated at 160,000 gallons from a point of diversion. Power is to be provided by PGE through an eligible renewable energy program augmented by solar. No generators will be used. Processing will occur offsite at a licensed facility. Onsite relocation and restoration of a previous cultivation area is proposed. The project includes a Special Permit for restoration within a Streamside Management Area.

EVIDENCE: a) Project File: PLN-12171-CUP

2. FINDING: **CEQA.** The project complies with the requirements of the California Environmental Quality Act. The Humboldt County Planning Commission has considered the Mitigated Negative Declaration previously adopted for the Commercial Medical Marijuana Land Use Ordinance as well as the Addendum to the Mitigated Negative Declaration that was prepared for the project pursuant to Section 15164 of the CEQA guidelines.

- EVIDENCE:**
- a) Addendum prepared for the proposed project.
 - b) The proposed project does not present substantial changes that would require major revisions to the previous MND. No new information of substantial importance that was not known and could not be known at the time was presented as described by §15162(c) of CEQA Guidelines.
 - c) The project has demonstrated compliance with the State Water Board Cannabis General Order for Waste Discharge by providing a copy of the Notice of Applicability and a Site Management Plan.
 - d) The nearest mapped Northern Spotted Owl activity centers are (HUM1006) approximately 1.51 miles to the southwest, (HUM1140) approximately 1.63 miles to the northeast, and (HUM1139 and HUM0894) approximately 1.65 miles to the southeast. The proposed project will utilize the pre-existing disturbed areas created prior to baseline. The project has been conditioned to ensure supplemental lighting associated with the nursery and mixed light cultivation adheres to Dark Sky Association standards including security lighting. As proposed and conditioned, the project is consistent with CMMLUO performance standards and CDFW guidance and will not negatively affect the northern spotted owl or other sensitive species.
 - e) A review of the California Natural Diversity Database indicates the likely presences of obscure bumblebee (*Bombus caliginosus*). This species of bee is considered vulnerable but is not among the four species currently under consideration for listing under the California Endangered Species Act. Per the Database, no other known rare or endangered species in the project area.
 - f) A Road Evaluation Report prepared by an engineer concludes the route leading to the subject parcel is developed to the equivalent of

a category 4 road standard, is in good condition, and does not have any evidence of a site-specific safety problem.

- g) The continued cultivation of commercial cannabis will not result in a net timber conversion. The project is conditioned requiring restocking of timber removed after 2015.
- h) Consultation with the Bear River Band of the Rohnerville Rancheria resulted in the standard inadvertent discovery protocol as a condition of approval.

FINDINGS FOR CONDITIONAL USE PERMIT AND SPECIAL PERMIT

3. FINDING: The proposed development is in conformance with the County General Plan, Open Space Plan, and the Open Space Action Program.

EVIDENCE: a) General agriculture is a use type permitted in the Timberland (T) land use designation. The proposed cannabis cultivation, an agricultural product, is within land planned and zoned for agricultural purposes, consistent with the use of Open Space land for managed production of resources. The use of an agricultural parcel for commercial agriculture is consistent with the Open Space Plan and Open Space Action Program. Therefore, the project is consistent with and complimentary to the Open Space Plan and its Open Space Action Program.

4. FINDING: The proposed development is consistent with the purposes of the existing Timber Production Zone (TPZ) in which the site is located.

EVIDENCE: a) The Timber Production Zone (TPZ) is intended to be applied to areas of the County in which primary uses include the growing and harvesting of timber and timber production facilities, including portable processing equipment. Compatible uses other than the direct growing, harvesting, and portable processing of timber include grazing and other agricultural uses.

b) All accessory agricultural uses are principally permitted in the TPZ.

c) Humboldt County Code section 314-55.4.8.2.2 allows cultivation of up to 43,560 square feet of existing outdoor cannabis cultivation and up to 22,000 square feet of existing mixed-light commercial cannabis on a parcel over 1 acre subject to approval of a Conditional Use Permit and a determination that the cultivation was in existence

prior to January 1, 2016. The application for 11,700 square feet of existing mixed light and 4,050 square feet of existing full sun commercial cannabis cultivation on a 30-acre parcel is consistent with this and with the cultivation area verification prepared conducted by staff.

- d) All cultivation is at least 30 feet from all property lines and there are no public parks, churches, school bus stops or other sensitive receptors within 600 feet of the cultivation areas.

5. FINDING: The proposed development is consistent with the requirements of the CMMLUO Provisions of the Zoning Ordinance.

- EVIDENCE:**
- a) The CMMLUO allows existing cannabis cultivation to be permitted in areas zoned TPZ (HCC 314-55.4.8.2.2).
 - b) The parcel was created in compliance with all applicable state and local subdivision regulations. The subject parcel was created legally by deed, recorded on July 20, 1942 in Book 256 of Deeds, page 155, prior to the establishment of applicable subdivision regulations.
 - c) The project will obtain water from a point of diversion, an eligible water source. The applicant has provided a Right to Divert and Use Water registration.
 - d) A Road Evaluation Report conducted by an engineer found the access roads to be functionally appropriate for the expected traffic.
 - e) The slope of the land where existing cannabis will be cultivated is 0% to 15%. No new grading will occur.
 - f) The continued cultivation of cannabis will not result in the net conversion of timberland. The project is conditioned to restock the approximate 1.0 acre of timber conversion that occurred after 2015.
 - g) The location of the cultivation complies with all setbacks required in Section 314-55.4.11.d. It is more than 30 feet from any property line and more than 600 feet from any school, church, public park, or Tribal Cultural Resource.

6. FINDING: The continued cultivation of 17,780 square feet of existing cannabis cultivation and the conditions under which it may be operated or maintained will not be detrimental to the public health, safety, or

welfare or materially injurious to properties or improvements in the vicinity.

- EVIDENCE:**
- a) The site is located on road that has been found to safely accommodate the amount of traffic generated by the proposed cannabis cultivation.
 - b) The site is in a rural part of the County where the typical parcel size is over 40 acres and many of the land holdings are very large. The proposed cannabis will not be in a location where there is an established neighborhood or other sensitive receptor such as a school, church, park, or other use which may be sensitive to cannabis cultivation. Approving cultivation on this site and the other sites which have been approved or are in the application process will not change the character of the area due to the large parcel sizes in the area.
 - c) Irrigation water will come from a point of diversion, an eligible water source.
 - d) Provisions have been made in the applicant's proposal to protect water quality and thus runoff to adjacent property and infiltration of water to groundwater resources will not be affected.

7. FINDING: The proposed development does not reduce the residential density for any parcel below that utilized by the Department of Housing and Community Development in determining compliance with housing element law.

- EVIDENCE:**
- a) The parcel was not included in the housing inventory of Humboldt County's 2019 Housing Element but does have the potential to support one housing unit. The approval of cannabis cultivation on this parcel will not conflict with the ability for a residence to be constructed on this parcel.

8. FINDING: Approval of this project is consistent with Humboldt County Board of Supervisors Resolution No. 18-43 which established a limit on the number of permits and acres which may be approved in each of the County's Planning Watersheds.

- EVIDENCE:**
- a) The project site is in the Lower Eel Planning Watershed, which under Resolution 18-43 is limited to 336 permits and 116 acres of cultivation. With the approval of this Conditional Use Permit, the

total approved permits in this Planning Watershed would be 78 permits and the total approved acres would be approximately 36.94 acres of cultivation.

DECISION

NOW, THEREFORE, based on the above findings and evidence, the Humboldt County Planning Commission does hereby:

- Adopt the findings set forth in this resolution; and
- Conditionally approves the Conditional Use Permit and Special Permit for Overland Road, LLC subject to the conditions of approval attached hereto as Attachment 1.

Adopted after review and consideration of all the evidence on **August 1, 2024**.

The motion was made by COMMISSIONER _____ and second by COMMISSIONER _____ and the following ROLL CALL vote:
