May 9, 2019

To Whom It May Concern:

Thank you for considering my offer to serve on the Fish and Game Commission for Humboldt County. I believe that I would bring unique background, expertise, and connections to the Commission, and offer a rich and nuanced perspective on the issues at play in Humboldt County. I am a wildlife biologist with more than a decade of experience in diverse habitats, including extensive experience in Humboldt County. I am also a Cooperative Extension advisor who maintains strong partnerships and trusting relationships with regulators, other scientists and biologists, landowners, and community leaders. Through my research and extension program, I have worked on a broad array of local issues, including climate change and sea level rise, habitat loss and restoration, fire management, cannabis impacts, and the interactions between wildlife populations and agricultural production. I look forward to contributing my perspective, local knowledge, and energy to the Commission.

Please let me know if you have any questions or need additional information.

Sincerely,

Jeffery Stackhouse  
Livestock and Natural Resources Advisor
