SURVEY NOTES:

1. The purpose of Site Plan is to show the proposed layout of Sacred Groves Kneeland Green Conservation Burial Project, which will create an ultra-low-density green burial grounds through the introduction of small, widely-spaced Family Groves of native trees, grasslands and existing forests. This will provide a needed service to people and restore native oak woodlands and savannah. Overall density of burial sites to be less than or equal to 50 per acre.
2. Boundary information shown hereon is based on ties to monuments shown on the Record of Survey for Pacific Lumber filed in Book 59 of Surveys, Pages 11-13.
3. The subject property is part of a larger working timber and ranch property owned and managed by Eric Almquist.
4. Aerial imagery shown hereon is from Google Earth with an imagery date of 7/10/2023 and reflects conditions at that time.
