PRIOR ADVISORY BOARD OR BOARD OF DIRECTORS EXPERIENCE?     X YES

### PLEASE WRITE A BRIEF STATEMENT DESCRIBING WHY YOU'RE INTERESTED IN SERVING ON THE PLANNING COMMISSION.

I have enjoyed contributing to community permitting and planning in our County and look forward to continuing to serve as planning commissioner. As an active resident of our County community I value opportunities to contribute to sustainable growth in our built environment that simultaneously further the resilience of our natural environment. A strong commitment to objectivity and fairness, and an educational and professional background in environmental impact assessment, natural resource sciences, cultural resource management, and education helps me to meet the expectations and requirements of the role, and our County community. This commitment is also demonstrated by my attendance record; I have missed very few meetings, including over the COVID year (s) and during months where we had a meeting every week. I enjoy great working relationships with the current commissioners, as with all the commissioners who have served over the last four years. I am respected for my integrity, introducing compromise solutions and motions for projects with decisions locked in ties, and in depth understanding. As a woman, parent, immigrant, scientist, planner, educator, and person raised in a small fishing and logging community who also lived in a very large multicultural city for 25 years (living in Mexico for two of those years), I contribute to the diversity of perspective that our County seeks to maintain across its commissions and committees. Additionally, I have been active in the California County Planning Commissioners Association: I co-organized a conference held here in Humboldt County in 2021, delivered the CEQA update presentation at the 2022 conference, represent the Northern District of California in meetings, and in October 2022 I received the Planning Commissioner of the Year award.

Thank you,  
Melanie
