Dear Kevin Borque,

**Letter of Completed Work for Lake or Streambed Alteration Agreement,
Notification No 1600-2019-0543-R1, APN 214-234-007**

This letter is to inform you that the California Department of Fish and Wildlife (CDFW) has reviewed the materials you submitted to demonstrate the project authorized by Lake or Streambed Alteration Agreement No 1600-2019-0543-R1 (Project) has been completed in accordance with your agreement. Based on CDFW's review of the information you provided, and a site visit conducted on October 18, 2023, CDFW has determined that the Project has been completed. This letter serves as written verification that a subsequent agreement is not needed to obtain or maintain a cultivation license issued by the Department of Cannabis Control. *This letter does not relieve you of the notification requirement in Fish and Game Code section 1602 for any future activities subject to this requirement.*

Please note that as the permittee, you remain responsible for implementing any mitigation measures or other provisions specified in your agreement to protect fish and wildlife resources after your agreement expires or is terminated, as specified in Fish and Game Code section 1605, subdivision (a)(2).

If you have questions regarding this letter, please contact Georgia Hamer, Environmental Scientist by email at Georgia.Hamer@wildlife.ca.gov.

Sincerely,

DocuSigned by:
