  - 1. Comprehensive or Commercial General Liability Insurance at least as broad as Insurance Services Office Commercial General Liability Coverage (occurrence form CG 0001), in an amount of Two Million Dollars (\$2,000,000.00) per occurrence for any one (1) incident,

- including, without limitation, personal injury, death and property damage. If a general aggregate limit is used, such limit shall apply separately hereto or shall be twice the required occurrence limit.
- 2. Automobile/Motor Liability Insurance with a limit of liability not less than One Million Dollars (\$1,000,000.00) combined single limit coverage. Such insurance shall include coverage of all owned, hired and non-owned vehicles, and be at least as broad as Insurance Service Offices Form Code 1 (any auto).
- 3. Workers' Compensation Insurance, as required by the California Labor Code, with statutory limits, and Employers Liability Insurance with a limit of no less than One Million Dollars (\$1,000,000.00) per accident for bodily injury or disease.   - 3. The inclusion of more than one (1) insured shall not operate to impair the rights of one (1) insured against another insured, and the coverage afforded shall apply as though separate policies had been issued to each insured, but the inclusion of more than one (1) insured shall not operate to increase the limits of the insurer's liability.
  - 4. For claims related to this Agreement, CONTRACTOR's insurance is the primary coverage to COUNTY, and any insurance or self-insurance programs maintained thereby are excess to CONTRACTOR's insurance and will not be used to contribute therewith.

////

# EXHIBIT B CALFRESH OUTREACH PROPOSAL

For Fiscal Years 2020-2021 through 2021-2022

# CalFresh Outreach Partnership Proposal Guidelines for Fiscal Year 2020-21

Federal and State funding for CalFresh Outreach has created an opportunity for community-based organizations and the Humboldt County Department of Health & Human Services (DHHS) to partner in improving the overarching goal of the CalFresh program to improve the health and well-being of families and individuals. DHHS will consider a partnership request at any time during the fiscal year and the activity time frames for requests can span fiscal years.

# The objectives of the outreach program and this funding for 2020-2021 are to:

Increase our retention outreach in the community. Retention assists those on benefits by keeping them in receipt as long as they are eligible without ever having a gap in these benefits due to not providing required documents or interviews. We are looking to partner with agencies who are able to help beyond the application as we turn our attention to maintaining benefits for eligible households as our primary focus.

- Assist eligible CalFresh recipients in maintaining benefits without a break in aid
- Reduce barriers to CalFresh enrollment and retention
- Increase awareness of and enrollment in CalFresh to low participation populations

DHHS would like to partner with community-based organizations that can help with the following efforts, with the highest priorities being retention activities, application assistance and direct enrollment support.

- Support enrollment and retention processes with information, direct application and enrollment and retention assistance
- Reach populations with low CalFresh participation rates (such as working families, SSI/SSP recipients, seniors, students, persons in recovery and persons with limited literacy or ability to speak/read English)
- Educate community members about CalFresh and program changes
- Reduce barriers to enrollment, including stigma, fear, language/literacy, and others. This could be
  by linking CalFresh to healthy nutritious food and providing CalFresh-related nutrition information
  and guidance, including how to shop for and cook nutritious food on a budget.

Interested? A complete partnership request includes a completed FY 2020-21 Partnership Request Form, Outreach Estimates Form, Partnership Request Budget Form and narrative as outlined on the request form.

Please read the contractor guidelines below and complete and return the attached CalFresh Outreach Partnership Request Form, with attachments, electronically to <a href="mailto:CalFreshOutreach@co.humboldt.ca.us">CalFreshOutreach@co.humboldt.ca.us</a> or paper copies to CalFresh Outreach DHHS 929 Koster St., Eureka, CA 95501.

Application process and outreach partner program questions can be answered by the CalFresh Outreach Analyst at 707-476-4760 or by emailing CalFreshOutreach@co.humboldt.ca.us.

\*If your agency has a previous contract for CalFresh Outreach, please be aware that we cannot guarantee that your new contract will start at the termination of your last agreement. In the event we cannot have a contract executed prior to the start date of the agreement, the start date will be moved. This could cause a gap in funding.

# **Frequently Asked Questions**

# What is a special population?

A special population is an identified sector of the population that has low enrollment in the CalFresh program. This could be folks who live rurally, students, persons aged over 65, ESL customers or any number of other groups that have barriers to program access.

My agency does not have the ability to do application assistance or retention assistance. We do provide CalFresh brochures to our participants. Can we still get funding for our program? Everyone is welcome to apply. In order to ensure ongoing funding is properly used and continues to be available, priority will be given to agencies able to complete the identified focus. We provide outreach materials like flyers to any agency, even if they are not contracted to provide services.

# If I assist someone in applying for CalFresh and give them educational materials about the program, can I count them in multiple categories on reports?

Yes. They could count in the materials distributed category for the materials handed out and the application assisted category as well. The important thing to remember is that everyone tracks their numbers differently and may have different ideas about what counts in one area versus another when completing reports. Explain how you do it in the narrative and you will have ensured you properly reported.

# Can I use this grant money to buy food for my program?

Consumables are part of the potential items that can be included in your budget. This is not a grant, and the funds are paid through a reimbursement process for services contracted in a legally binding agreement between your agency and DHHS. Food purchases included in the contract budget and approved by DHHS are billable.

CalFresh Outreach funds are special funding for outreach separate from EBT benefits, right? CalFresh outreach funding is actually from the same fund as CalFresh benefits. CalFresh Food pays for the benefits on the customers EBT card, the staff that administers these benefits and the outreach contracts. These funds are not unlimited and the EBT benefits are the highest priority as far as the spending goes. After benefits, money is used to pay for the administration of the program. CalFresh Outreach funds are the last priority of this funding. It is an important priority of our agency to ensure we continue to contract for outreach and provide these funds to our partners. The outreach services partner agencies perform is very important in reducing food insecurity in our community.

My staff does some CalFresh activities, can I have their pay included on my contract budget? The personnel cost that is included in the budget for this agreement should be for the portion of work that is directly tied to CalFresh outreach activities contracted by DHHS to be completed by your agency. Example: Let's say a staff member's primary duties is to assist customers in finding housing. During a 40 hour work week they spend an hour everyday reviewing CalFresh with customers and helping them access or keep their benefits with DHHS. This would mean that 5 hours of work in the 40 hour work week could be covered by this contract. Clearly explaining the FTE for a position and backing up the amount

you are requesting with information about the quantity of time spent on CalFresh outreach activities versus regular duties will help to ensure it can be included in the contract.

2. Describe staff abilities to complete outreach duties with other work being completed for your agency. Include how many people will be conducting CalFresh Outreach, staff turnover for your agency and ability to keep staff trained on our program and outreach activities. This is a good place to include how much work will be specifically related to contracted CalFresh Outreach activities.

Food for People operates 18 programs and reaches 12,000 people each month across Humboldt County. CalFresh Outreach has been a major component of our work for decades, infused into all food distribution and education programs, in addition to nutrition education. We employ a team of three CalFresh Outreach staff who are dedicated to covering as much ground as possible at all of our various program sites countywide, in addition to additional outreach work in the community and amongst partner organizations. Our lead Outreach team staffer (Community Education & Outreach Coordinator) has been in her role with us for almost nine years and ensures that our other Outreach staff, plus additional food bank staff and volunteers, are trained up on and well versed in CalFresh Outreach, and on an ongoing basis as the program changes and has updates. Our bilingual CalFresh Outreach Specialist has been with us for more than one year and came to us with prior experience conducting CalFresh Outreach at another local organization; her predecessor left Humboldt County to be closer to family in Los Angeles. Our CalFresh Nutrition Education Specialist has been with us for more than one year.

We are currently in the hiring process for a new Mobile Produce Pantry (MPP) Coordinator, who is responsible for both running the MPP program and ensuring that all households who visit it are pre-screened for CalFresh and referred to our Outreach staff or DHHS Mobile Outreach, as needed. The prior MPP Coordinator was with us for three years. The MPP program is currently being covered by a rotation of our CalFresh Outreach staff, since it is such a critical and successful piece of our countywide and rural, remote CalFresh Outreach, screening, and education work. Our Pantry Network Coordinator has been with us for a year and a half and works with our CalFresh Outreach team to maintain CalFresh education for the coordinators of our 16 countywide, remote pantry sites via trainings and monthly e-newsletters. She ensures that all pantry site coordinators and volunteers incorporate our CalFresh informational materials in program distributions and that they are well versed in referring households to our Outreach services. Our Director of Programs, who supervises the CalFresh Outreach team and additional programs, has been with us for almost thirteen years and started with the organization in the Community Education & Outreach Coordinator role that managed our CalFresh Outreach program. She continues to support our CalFresh Outreach program, provide guidance for it, and process data to monitor outcomes and the direction of the program. We have three warehouse positions that are partially funded through the contract and they make it possible for us to procure, store and distribute the more than 240,000 lbs. of food that go to the MEV, SOS and Food for People programs annually. Procurement has become especially challenging during Covid-19 as the usual supply chains have been impacted significantly, but we are pleased to report that our staff has been largely successful in identifying new vendors with good pricing. We also have admin staff that provides either direct support or oversight to track all food and other purchases, payroll, contract and compliance reporting, budget, etc. and the number of hours they work per week is detailed on the payroll projections document that accompanies the budget documents. The majority of our admin staff has been with the organization from five to 19 years.

# 3. What difference will increased CalFresh enrollment make in your community or neighborhood and for the population you are serving? How will the proposed activities fit into or relate to other programs in your organization and community?

Our 18 programs reach 12,000 individuals of all ages monthly across Humboldt County, all of whom are in need of food assistance, and many of whom are specifically seeking ways to access and afford healthy foods. We expect that as the current pandemic continues to unfold, an increasing number of Humboldt County households will turn to us for help as our local economy struggles to recover from lost jobs/wages as businesses close or scale back their operations in order to survive financially. The first wave is likely to hit when unemployment benefits decrease or run out. Increasing CalFresh enrollment has been a critical part of the safety net response in these first months of the pandemic, and thanks to the leadership of DHHS and its ongoing collaboration with community partners, many households were on track with information and technical support for enrolling, and we were well equipped to help newly unemployed households sign up. We integrate CalFresh education, pre-screening, application assistance, and benefit retention with meeting our clients' immediate need for food.

We aim to reach as many people as possible who may not be accessing the program currently or who may become newly eligible. For many years now we also aim to help households retain their benefits, by thoroughly

educating on what to expect in the eligibility and reporting process and serving as a resource for helping to fill out forms and acquire or submit supporting documents. Our Outreach staff call the households we've helped apply for CalFresh, at specific times in their eligibility and ongoing case, to check in on how it's going, remind about reporting deadlines, and provide retention assistance. For many years, our Outreach staff have provided application assistance on site at the food bank and throughout the county in partnership with our various food distribution programs and sites, including our Choice Pantry, network of 16 remote pantries, senior food distribution sites countywide, Mobile Produce Pantry sites in 10 communities, seasonal produce markets in 4 areas of the county, several recent drive through distributions and many other opportunities for community engagement.

The current pandemic has necessitated a rethinking of safest methods for carrying out application and retention assistance in the field. We have pivoted our techniques and messaging to encourage households to limit activity outside the home and always comply with masking and social distancing. We take great care to protect the most vulnerable households, with extra safety measures within our senior programs and for households in any of our programs that are at particularly high risk. We are increasing awareness of our in-house CalFresh support (enrollment, Q&A, and retention assistance) via phone and internet. We are protecting the health of our community, staff, and countywide emergency food operations by providing effective opportunities for households to engage in more extensive CalFresh Outreach and retention assistance remotely via phone and internet. We are already finding that many of the seniors (and others) that we serve are very cautious about providing personal information via phone and internet to people they do not know personally, which creates a barrier to applying for CalFresh directly with DHHS or the online application. We are also currently experiencing that, since our client households know and trust us, we can vouch for the trustworthiness of the DHHS Call Center and/or walk households through the online application process and report forms via phone and answer the questions that they have along the way.

Our Outreach team has a significant amount of experience providing quality CalFresh education and application assistance, as a resource necessary to help food bank program participants meet their household food needs and improve their health and wellbeing. In addition, our Outreach staff are well connected to and acquainted with a large number of community partners and have vast knowledge of the appropriate agencies to refer households to, as needed. During the pandemic, for safety purposes, as we rethink how we do client services, our Outreach team has been doing more application referrals to <a href="www.getcalfresh.org">www.getcalfresh.org</a> and the DHHS call center, in order to reduce the volume of face-to-face contact. Our Outreach team is getting CalFresh print materials into all program food bags, with information on ways to apply most directly and safely, how to reach us for support with that process, and key points for retention of benefits. We are happy to support households through their online application process by answering questions and providing explanations. This is especially helpful for those who are less comfortable with technology. We are also expanding outreach efforts to reach people who have never accessed services before, but now find themselves in need of help due to the pandemic, including but not limited to raising awareness via social media and our website. Access to CalFresh will be critical to households suffering economically and nutritionally during the pandemic and will simultaneously be helpful to our local economy and grocery stores.

We continue to reach out to SSI households in our countywide programs, to educate about changes to CalFresh that could have changed their eligibility picture. Approximately 40% of our Choice Pantry households have SSI income, as do approximately 20% of Mobile Produce Pantry households countywide. A large portion of the 800 households in our countywide Senior & Homebound Programs receive SSI income, and we estimate that a large portion of the households participating in our countywide Pantry Network and other programs have SSI income as well. We are making progress with this population and will continue to educate on expanded eligibility.

Our food bank programs provide nutrition education alongside CalFresh outreach. We introduce households to a variety of healthy, easy, and interesting ways to utilize fresh produce and other foods available through our programs. We also educate on cooking skills, for all experience levels, in addition to meal planning, shopping on a budget, and growing a garden with CalFresh. Our goal is to share something new about CalFresh and nutrition/cooking each time a household interacts with our programs. We continue to promote Market Match at farmers' markets, to help expand access to fresh, local produce, and we provide support materials such as Grow Your Garden with CalFresh brochures, and garden growing guides (with CalFresh information on back) to North Coast Growers' Association to distribute at farmers' markets. We share these materials with other community partners as well, in addition to distributing through our in-house programs. We work hard to build households' trust in CalFresh and with DHHS, so that all households participating in our programs know we're a team invested in their health and in helping them through the application, eligibility, and retention processes.

Churn reduction has always been a piece of this for us. We encourage households to bring as much supporting documentation as possible when applying with us, and as we make our way through this pandemic as safely as possible, we will continue to encourage and remind households to gather and provide any necessary documentation to provide via online and other channels. We follow up with the households we assist, to help with any challenges and questions that arise in the eligibility process, with the goal of avoiding the need to reapply, due to lack of documentation or confusion over semi-annual reporting or recertification. We want households to have a smooth experience with the program and put healthy food on the table. This will be especially important for people who are new to CalFresh as a result of the pandemic.

We partner with many organizations throughout the community, to strengthen the collective outreach work occurring across the county. Some specific projects include outreach via farmers' markets; partnerships with UIHS and RCAA Community Garden Collaborative; community partnerships with family and community resource centers, local colleges, groups reaching the Latino population, senior organizations, tribal organizations, and more. We help support, educate, and foster collaboration with community partners via CalFresh Task Force, trainings, the CalFresh Task Force webpage and e-newsletter, program newsletters, sharing outreach materials, and other outreach projects. We have taken a proactive role in sharing out new and evolving information related to changes in CalFresh benefits due to COVID-19 through our CalFresh Task Force network, CalFresh Outreach and CalFresh Task Force webpages, and social media. We are well poised to continue that role as conditions change.

We also provide pre-assembled nonperishable food bags to the DHHS Mobile Outreach and SOS vehicles on a monthly basis, to help DHHS staff meet community members' immediate food needs while engaging in conversations about CalFresh and other services. We will continue to provide these bags to help the Mobile Outreach and SOS programs in their work serving low-income clients in food deserts and high-need areas of the community. This program has been an important partner in reaching more remote communities, particularly tribal communities that are encouraged to shelter in place and have limited access during the pandemic.

# 4. Please describe your organization's capacity to succeed with the proposed project and your plans, if any, for continuing the work after the proposed project is complete.

Our organization has been providing quality, in-depth CalFresh Outreach, education, application assistance, and follow-up retention support for approximately 20 years, through our programs and in the community at large. We have successfully managed this CalFresh contract for the past eight years, with a commitment to pursuing creative and efficient ways to assist people, share tools, educate the service provider community, improve communication between CalFresh partners, and collect data that helps us measure impact and determine what more we can do. This includes data from California Center for Rural Policy (CCRP)'s survey of households in our countywide network of 17 pantries and ongoing data collection at remote site distributions and via several of our programs' intake databases. Benefit retention and churn reduction is always a core piece of our outreach work. We work with the County to not just help folks access the program, but to do so with the clarity and support necessary to avoid falling off of the program or eligibility stage unnecessarily, ideally reducing the workload and frustration for all parties. Our CalFresh Outreach team's data management program helps us follow-up with the households we assist and produce detailed statistics for evaluating our reach.

Food for People serves roughly 10% of the Humboldt County population through its 18 programs, and we are gearing up to expand capacity as the pandemic unfolds and creates more uncertainty and challenges for our local economy in the coming year. Our client population overlaps with the CalFresh population, including special populations that traditionally require specialized outreach methods and information. We examine trends, challenges, successes, data, and barriers that households experience, and we utilize all of this information to hone our outreach work.

We appreciate working with Humboldt County DHHS and the organizations engaging in CalFresh outreach throughout Humboldt County, to extend each other's reach and provide a safety net for our community. This project aligns with our mission to eliminate hunger and improve the health and well-being of our community through access to healthy and nutritious foods and community education. We remain committed to this work into the future.

#### Food for People DHHS 2020-2021 Budget Narrative (\*SEE ATTACHED WORKSHEETS)

The 2020-2021 Budget and Scope of Work outline the project activities, project deliverables and related costs to continue CalFresh outreach and enrollment activities in partnership with Humboldt County Department of Health and Human Services and other community-based partners. Activities outlined in the SOW build upon the successes achieved to date.

#### **Transportation/Travel:**

#### **Mobile Produce Pantry Outreach:**

Line items reflect the cost for continued operation of the Mobile Produce Pantry, traveling in coordination with the DHHS Mobile Outreach Vehicle and Street Outreach Services (SOS) to conduct CalFresh outreach and nutrition education activities at sites countywide. Regularly scheduled sites include Redway, Fortuna, Rio Dell, Orleans, Weitchpec, Willow Creek, Hoopa, Orick, Blue Lake and Trinidad. The Mobile Produce Pantry Coordinator and other Outreach staff pre-screen a minimum of 1,200 households each quarter for CalFresh, help households apply, and make referrals to the Mobile Outreach Vehicle for CalFresh and other county services.

#### Outreach mileage and per diem:

This line item reflects mileage and per diem for use of personal vehicles and fuel costs for outreach staff's use of FFP vehicles specific to outreach activities conducted by the three CalFresh outreach staff. It also includes travel costs to attend in-state CalFresh trainings, such as the annual CalFresh Forum in Sacramento and peer to peer technical assistance forums coordinated by the California Association of Food Banks, at whatever point in the future that it is deemed safe to convene in person.

# **Personnel:**

#### **CalFresh Outreach Staff:**

Budget includes payroll costs associated with retaining three, full time CalFresh Outreach staff to conduct outreach, enrollment and retention activities; coordinate and facilitate the CalFresh Task Force meetings; coordinate training for project partners (as needed); promote the benefits of the Market Match, which is available for CalFresh recipients at North Coast Growers' Association's Farmers' Markets; and assist with identifying topics and potential speakers for future CalFresh Forums. Staff includes one bilingual and one Nutrition Education CalFresh application assistor at 100% FTE and a lead outreach and application assistance specialist funded at 90% FTE. Our Outreach staff will be available to conduct CalFresh trainings for local professionals at partner organizations upon request; although these may take place online in light of Covid-19 precautions. Since enrollment is currently high due to the increased number of people without jobs seeking benefits, a major focus will be on retention of benefits, especially for those who are new to the process.

#### **Mobile Produce Pantry Coordinator:**

This includes personnel costs for one full time CalFresh outreach staff person who drives the Mobile Produce Pantry to the scheduled sites in coordination with the DHHS Mobile Outreach Vehicle and SOS and conducts outreach. Each individual accessing the Mobile Produce Pantry is prescreened for CalFresh and an intake file is established tracking their CalFresh status. Food for People outreach staff initiate the application process with the client if it appears they might be eligible or refers them to the Mobile Outreach Vehicle or SOS for additional screening and/or to discuss other county services that might assist the individual or family, such as MediCal, CalWORKS, etc. Recipes are also distributed and nutrition education activities (taste tests, food demos, etc.) will resume as soon as it is safe to do so. These connections help individuals understand the benefits of a healthy diet and how CalFresh might help them access more fresh fruits and vegetables.

#### **Sourcing and Inventory Control Manager:**

This line item reflects the amount of time spent coordinating food purchases and managing inventory flow and data tracking based on the volume of produce purchases made for the Mobile Produce Pantry and the nonperishable food purchases that are included in outreach and engagement activities through Food for People's programs and the Mobile Outreach Vehicle and SOS. Food for People's inventory system tracks all incoming and outgoing food by item, source, date and value and this information is included in all relevant reports.

#### **Operations Manager:**

Budget reflects five hours per week overseeing food purchasing, storage, inventory tracking and delivery of more than 240,000 lbs. of nonperishable foods and produce annually.

#### **Warehouse Distribution Specialist:**

Budget reflects 25 hours per week focused on loading and unloading trucks, processing produce, and assembling food orders/bags for the MEV, SOS, Mobile Produce Pantry and other Food for People programs including our network of 17 food pantries countywide, and child and senior nutrition programs.

# Warehouse Support Specialist:

Budget reflects 25 hours per week assisting with processing orders and deliveries, and assembly of nonperishable and produce food bags for the MEV, SOS, Mobile Produce Pantry and other Food for People programs as noted above. This task has become much larger since Covid-19 has necessitated the switch from a "choice" model to pre-made bags to minimize contact for our clients, staff and volunteers. We've also had to reduce the number of volunteers assisting with these projects in order to maintain social distancing but we've recently been able to incorporate training for a WEX referral who assists with some warehouse tasks.

#### **Volunteer and Direct Services Manager:**

Individuals seeking food assistance from FFP participate in an intake interview that collects household and demographic data about the individual and their household, including income sources, housing status, etc. We would note that intake interviews have been shortened considerably in recent months due to Covid-19 but we hope to resume the process as soon as it is safe to do so, although questions about each client's CalFresh status continue to be asked at each point of contact. This data is recorded in a data management platform offered through Oasis Insight, which is a cloud based service used by food banks and other nonprofits nationwide. Oasis Insight makes it possible for us to create monthly reports that are used to analyze client demographics and monitor service trends, which has proven invaluable in terms of identifying food pantry clients who might be eligible for CalFresh. The California Department of Social Services is currently using Oasis Insight statewide for enrolling and tracking clients in the federal Commodity Supplemental Food Program (CSFP).

Budget reflects five hours per week of the Volunteer and Direct Services Manager's time to run reports and provide training and technical support for volunteers, WEX, and CalWORKS placements to conduct data entry for all client intake files using the Oasis Insight platform. This has proven to be an important component of job skills development for WEX and CalWORKS trainees in particular. The intake reports also make it possible for us to analyze the data in more depth and monitor service trends and related demographic data. Data from the reports will be made available to DHHS and other project partners upon request.

The Volunteer and Direct Services Manager also recruits volunteers to assist with assembly of an average of 300 nonperishable food bags that are provided to the Mobile Outreach Vehicle and SOS each month, which makes it possible for DHHS staff to respond to the clients' immediate needs while screening and/or enrolling clients in essential services. Food for all of our programs is being pre-bagged at this time to minimize contact.

#### **Local Food Resources Coordinator:**

Budget reflects time spent coordinating produce orders for the Mobile Produce Pantry and arranging deliveries from the various sources. Produce is purchased through the statewide Farm to Family program managed by the California Association of Food Banks and from locally based farmers and agricultural producers. Farm to Family produce is sourced through Redwood Empire Food Bank in Santa Rosa, providing year round access to a variety of crops grown throughout California, although we try to source as much as possible locally. Emphasis is on variety, quality and cost.

#### **Pantry Network Coordinator:**

The Pantry Network Coordinator oversees operations at each of our 17 pantry sites countywide, ensuring that CalFresh informational materials are available and that outreach is occurring during food distributions. This is accomplished through regular monthly contacts, the annual Pantry Summit and regional meetings (on hold for now) that are convened to promote greater collaboration in specific areas of the county. She provides training, technical support and other resources for the individual pantry coordinators and their volunteers at the 16 remote sites to assist them with their CalFresh outreach and engagement activities. Activities are coordinated with our Outreach staff to provide information and onsite application and retention assistance. We also coordinate with CCRP to conduct client surveys every three years (the latest was completed in early 2018) and the Pantry Network Coordinator is responsible for following up with each pantry site to provide feedback on customer satisfaction, client information and referral needs, and other health and community related topics. She also monitors data collection through the Oasis Insight database tracking system, which is currently in use at the Eureka Choice Pantry and Arcata pantry site.

# **Director of Programs:**

The Director of Programs coordinates all weekly website postings for DHHS and designated CalFresh partners on the dedicated CalFresh Task Force (CFTF) web page, including a variety of outreach materials, some of which target specific ethnic and age related populations; SSI-CalFresh expansion informational and outreach materials; links to CalFresh eligibility and nutrition information; FAQ's; training opportunities; and postings for outreach activities being conducted by project partners. Utilization of the CalFresh Outreach-related pages remains strong but more than doubled in the last quarter to 3,090 hits. 96 were from CalFresh Task Force members and 2,029 were from the general public with the biggest increase in individuals seeking Covid-related CalFresh help once those materials (including Pandemic-EBT) were added. It went from 110 downloads in April to 281 in May and jumped to 886 in June. A detailed list of the number of webpage hits and the number of downloads, by document, is included in each of our quarterly reports.

The Director of Programs also handles all of the program data tracking related to the SOW, plus quarterly and year end reporting and provides technical assistance to all program coordinators within FFP who are involved in the contract. She also participates in CalFresh Task Force meetings, assists with planning special projects, assists with trainings for project partners and in planning the annual CalFresh Forum.

#### **Executive Director:**

Budget reflects time spent managing contract activities, preparing reports, ensuring budget compliance and participating in meetings and planning activities.

#### **Finance Director:**

Budget reflects time spent developing the annual project budget, and preparing the financial reports and the monthly billing for contract activities.

# Bookkeeper/Business Resources Manager:

Budget reflects time spent tracking all contract-related expenses, including payroll, food and equipment and supplies purchases.

#### **Consumables/Supplies:**

#### **Outreach Food Purchases:**

This line item covers the purchase of nonperishable foods that are used as an outreach and engagement strategy by the Mobile Outreach Vehicle, SOS and Food for People programs. It has been extremely effective to be able to meet the immediate food needs of clients interested in pursuing CalFresh benefits, which may take up to a month to be approved, depending on how quickly the required documentation is submitted. This line item also includes produce purchases for the Mobile Produce Outreach Pantry, which travels to remote sites, many of which are considered food deserts, with the Mobile Outreach Vehicle and SOS on a monthly schedule.

#### **Crates and boxes:**

Covers the purchase of boxes and crates used to store and transport the food provided to the DHHS Mobile Engagement Vehicle and/or SOS and other sites.

#### **Operational Costs:**

#### **Rent - Storage Space for Outreach Food Purchases:**

Rental costs for additional off-site storage space to accommodate the increased volume of purchased nonperishable foods outlined above, which FFP would not otherwise have the space to store. Operational costs also include insurance, utilities and pest control. We would note that the cost to rent or lease warehouse space has risen significantly over the past several years due to the impact of the cannabis industry on both availability and cost.

#### **General Project Operating Expenses:**

Line item includes supplies, telephone, postage, garbage, etc. needed to meet contract requirements.

#### **Copy Expenses:**

This includes annual costs to photocopy prescreening and release of information forms, client documentation, recipes, and other outreach materials.

#### **Printing:**

This line item reflects the cost of printing CalFresh brochures, letters, "Grow Your Garden with CalFresh" cards and brochures, etc.

#### Tech support for CalFresh website hosting and online access:

Morse Media hosts and provides technical support for the website, including regular software and security updates. This line item also includes the cost of satellite internet access for remote access at pantry sites which is billed through our Verizon services.

#### Other Outreach operating expenses:

Line item reflects postage, office supplies, purchases for food demos and miscellaneous program expenses specific to the three CalFresh outreach staff.

#### California Association of Food Banks dues:

Our membership in the California Association of Food Banks allows us to access low cost produce (average cost is \$.08/pound) through the Farm to Family program and supports connections with CAFB's CalFresh outreach peer network that promotes the sharing of outreach and enrollment strategies among partners statewide.

#### Oasis Insight User Fees:

This is the annual cost for 8 users to access the Oasis Insight client intake database and SNAP/CalFresh database feature and includes user fees for additional pantry pilot sites. The cost for all technical support is included in the annual fee, except for any changes in report format that might be necessary.

# **Indirect Overhead:**

This includes the general administrative costs associated with contract fulfillment such as liability insurance, building maintenance, use of additional food bank vehicles for food purchases and deliveries, etc.

# Outreach Contract Quarterly Report Form 2020-21

CalFresh Outreach partnership contracts are an opportunity for community-based organizations and the Humboldt County Department of Health & Human Services (DHHS) to work together to improve the health of our community. As part of the contract agreement, reports must be completed and submitted to track progress and activities.

Due dates: Quarterly reports are based on DHHS fiscal year quarters, regardless of when an agency's contract begins or ends. The table below shows each fiscal year quarter and the report due dates. If the total agreement amount is \$15,000 or less you are only required to submit a Final Summary Report.

Quarter	Dates Included	Date Report Due to DHHS
1	July 1 through September 30	October 31
2	October 1 through December 31	January 31
3	January 1 through March 31	April 30
4	April 1 through June 30	July 31

### **Submission of reports:**

All reports are sent to **both** CalFresh Outreach and the DHHS Contract Unit at the following addresses:

<u>CalFreshOutreach@co.humboldt.ca.us</u> DHHS-ContractUnit@co.humboldt.ca.us

Or by mail to: Humboldt County DHHS – Social Services

### **Report Narrative:**

Use the narrative section to explain the Outreach Activities your organization completed or participated in. Remember to talk about both processes and outcomes whenever possible.

### Some questions to consider when completing the narrative sections of the report:

- How did the programs/services support CalFresh Outreach?
- How did you track or calculate the number of individuals your organization is reported to have reached? There is no one way to accomplish this and each agency is different.
- Did the programs/services reach the populations it was intended to reach, and were the participants satisfied?
- What were the program results, and did the program produce the intended changes? Unintended changes?
- Was the value of the outcomes achieved worth the resources invested in the program?

### **Frequently Asked Questions**

### My agency's contract start and end dates do not align with the fiscal year. How do I know what quarterly report I am on and when the report is due?

The quarterly report cycle for CalFresh Outreach contracts is set by the DHHS fiscal year regardless of when a contract begins or terminates. If you had an active contract during any of the months listed on the cycle information at the top of this form, then you complete the applicable report. Example: if your agency had one contract stop in February and a new contract start in March, your Quarter 3 report would be due April 30<sup>th</sup> and would include data from the first contract for January through February as well as data from the new contract for March. See Exhibit F – CalFresh Outreach Reporting Guidelines in your executed contract for more information.

### What is a special population?

A special population is an identified sector of the population that has low enrollment in the CalFresh program. This could be folks who live rurally, students, persons aged over 65, ESL customers or any number of other groups that have barriers to program access.

### How do I make sure I am not duplicating counts?

Many times people will receive multiple handouts from your agency, or you will assist multiple people in a household. If you explain how you count in the narrative section, you will be making sure your data is clear and will not need to worry about duplicating counts in error. Here is an example: if you provided an application to a family of five, this would be entered as "1" for applications provided not as "5" for each person in the home. This is because you provided one application to the household.

### If I assist someone in applying for CalFresh and give them educational materials, can I count them in multiple categories on reports?

Yes. They could count in the materials distributed category and the application assisted category. The important thing to remember is that everyone tracks their numbers differently and may have different ideas about what counts in one area versus another when completing reports. Explain how your agency does it in the narrative and you will have ensured you properly reported.

### Where do I put how many meals or food bags were distributed?

This section has been removed from our report tracking to align with the current focus for these agreements. You can include any important information about food distribution performed by your agency in the narrative for Section B. Positive Messaging.

### My agency is reusing print media developed previously that DHHS Media already approved. Does DHHS Media need to review it again?

Please send it through again. Anything that will be distributed with CalFresh messaging needs to go through DHHS Media for approval. If it was approved in the past there might be something that needs to be updated. CalFresh recently rebranded and it is important that we use current logos and information.

### My report might be late due to circumstances outside my control. What do I do?

Please email <u>CalFreshOutreach@co.humboldt.ca.us</u> with the reason for the delay and the expected date the report will be submitted. This allows for a record of why the delay occurred if it is ever questioned.

### Report:

In your narrative, please remember to talk about both processes and outcomes when possible.

Process evaluation attempts to answer these types of questions:

- Were the programs/services of the right quality and content to support CalFresh Outreach?
- How many individuals did you help either receive or maintain CalFresh benefits?
- Did the program reach the population that it was intended to reach? Participant count in total?
- Are those who participated satisfied with the program?

Outcome evaluation focuses on answers to these types of questions:

- What were the program results and did the program produce the intended changes? Unintended changes?
- At what level were changes sought and accomplished—short term, intermediate or long term?
- How did the programs results compare in terms of effectiveness and efficiency, and was the outcome achieved worth the resources invested in the program?

 As your contract comes to an end, discuss what your organization could have done differently to better support CalFresh Outreach? If you are planning on continuing this program, how has your organization prepared to make these changes?

### **Frequently Asked Questions**

### My agency's contract end date aligns with one of the quarterly report end dates. Do I need to submit both?

Yes. The Final Report is tied to the end date of the specific contract and must be provided. The Quarterly reports cover the months specified on that form and are due regardless of when a contract begins or ends for all months an agency had an active contract for an amount over \$15,000. This means both reports may be required at the same time if the contract termination date happens to align with quarterly reporting timeframes.

### Do we need to include pictures or other documentation of our program?

It is not required that you provide additional items regarding your program. You can provide them if you would like to. Items like surveys or program pictures can be included if you wish. If you are looking to include something like program or event surveys, please summarize the information in them instead of submitting participant originals.

### My agency had a small contract for \$15,000 or less, do we submit a final report?

Yes. All agencies must submit a final report summarizing their program's experience over the course of their agreement regardless of contract amount.
