Subject: Sproul Creek Road Assessment

EXTERNAL:

Adona,

Although we're buried, I believe that we can fit this work in. Below is a preliminary scope/budget.

Task 1: LIDAR acquisition and base map development. \$2,000
Task 2: Field assessment (2 days). \$4,000
Task 3: Hydrologic and Hydraulic analyses for culvert sizing. \$2,000
Task 4: Mapping & report development with road upgrade plan and prescriptions. \$6,000
Task 5: Site visit with agency staff and community. \$2,000

Note: budget does not include full engineered design for culvert to bridge upgrade. Report with plan and prescriptions for all other sites should be sufficient to support permitting and construction.

Total Cost: \$16,000
