**RE: Fortuna request for disbursement of Rohner Creek Flood Districts Funds**

Mr. Seemann,

The City of Fortuna would like to request disbursement of the available funds in the Rohner Creek Flood District Funds. As you are aware, the City in recent years completed the Rohner and Hillside Creek Flood Control Project. Since the completion of construction the City has been engaged in continuing monitoring and maintenance efforts, and additional funding is necessary to cover the costs of this coming year's wetlands delineation and vegetation monitoring surveys. As these efforts are vital to the continued function of the greater Rohner Creek floodway, the City believes that a distribution from this fund is appropriate.

If you have any questions regarding this requested distribution please feel free to contact me at (707)-725-1469.

Very Best,

Brendan Byrd  
Public Works Director/City Engineer  
City of Fortuna
