Public Comment via Telephone message on Maple Creek Investments PLN-2018-15197

1. Judy Rice left a message of opposition to this project due to various concerns. This note records her comment.
2. Gordon Schatz opposes the project and stated that its location is unsuitable, power extension to the site may prove problematic with the cutting of trees and a fire hazard in the area, the water use and crowding of permits in this general area are all concerns. He discourages approval of this permit. This note records his comment.

These comments were retrieved from my voicemail after the hearing and I will make them part of the record.
