

I2

November 3, 2018

The following neighbors request that the Humboldt County Public Works Department install a "No Parking" sign at the intersection of John Hill and Essex Street at APN 014-213-014 to ensure that the visibility of the intersections remains clear. The placement of the sign would include the current 30' of visibility plus 8' additional feet along the hedge to allow for large trucks, auto, or recreational vehicle to park without interfering with visibility. The owners of APN 014-213-014 agree to maintain the 3' maximum height of the hedge at the visibility setback or fencing if the hedge is replaced.
