

## **Conditions of Approval**

APPROVAL OF THE ZONE RECLASSIFICATION IS CONDITIONED ON THE FOLLOWING TERMS AND REQUIREMENTS WHICH MUST BE SATISFIED BEFORE THE ZONE RECLASSIFICATION CAN BE SCHEDULED FOR ACTION BY THE BOARD OF SUPERVISORS:

1. The applicant is responsible for obtaining all necessary County and State permits and licenses and for meeting all requirements set forth by other regulatory agencies.
2. The applicant is required to pay for permit processing on a time-and-materials basis as set forth in the schedule of fees and charges as adopted by ordinance of the Humboldt County Board of Supervisors. The Planning and Building Department will provide a bill to the applicant after the decision. Any and all outstanding planning fees to cover the processing of the application to decision by the Hearing Officer shall be paid to the Humboldt County Planning and Building Department, 3015 H Street, Eureka 95501.
3. Within five (5) days of the effective date of the approval of this zone reclassification, the applicant shall submit a check to the Planning Department, payable to "Humboldt County Recorder" in the amount of \$50. This check is to cover the County Clerk's costs for filing the Notice of Exemption pursuant to Section 15067 of the CEQA Guidelines.
4. The property owner(s) shall execute and file with the Planning Department the statement titled "Notice and Acknowledgement Regarding Agricultural Activities in Humboldt County" as required by Section 314-43.2 of the Humboldt County Code. A copy of the required form will be provided in the final approval packet.
5. The Assessor's office requires that any grazing acres to be reclassified as TPZ acres are to be shown by site class, with a map showing the site designation of all quality classes within the entire project. This documentation shall be prepared under the direction of a Registered Professional Forester and submitted to the Assessor's office for their acceptance.

### **Informational Notes:**

1. Per Public Works memo dated June 9, 2022, the subject property is located in the State Responsibility Area and is subject to the County's Fire Safe Regulations (FSR) as set forth in County Code. Development of the subject property must comply with the FSR. The Department is involved with ensuring that roads meet minimum FSR. The most common issues with roads not conforming to the FSR are: the maximum length of dead-end road is exceeded; the width of road is too narrow; the grade of the road is too steep; and curve radii are too small. Development for the subject property may require extensive on-site and off-site road improvements in order to meet minimum standards. The applicant should be advised that approval of the Zone Reclassification does not imply that the FSR have been met or can be met.
2. If cultural resources are encountered, all work must cease and a qualified cultural resources specialist contacted to analyze the significance of the find and formulate further mitigation (e.g., project relation, excavation plan, protective cover). Prehistoric materials may include obsidian or chert flakes, tools, locally darkened midden soils, ground stone artifacts, dietary bone, and human burials. The applicant is responsible for compliance with this requirement.
