RE: **Response Needed** Permit Application No. 11544 and 12492 Bee Kind Farms
APN 530-151-005-000, 530-151-004

Dear Mr. Wyman,

Our office has been attempting to schedule a site visit to the above referenced cultivation sites since last fall. While we understand that the properties have been inaccessible for most of this time due to a heavy snowfall, we have been trying to contact you since the beginning of May now that the snow has mostly receded however we have been unable to reach you by phone or email.

A site visit is necessary prior to this Department being able to complete our review of the applications. Additionally, given the continued cultural and biological resource concerns raised by these two applications it is imperative that we are able to conduct a site visit as soon as possible. Both the California Department of Fish and Wildlife and the Yurok Tribe are also very interested in visiting the site to ensure that these resources are being protected as well as to help facilitate a plan to restore the cultivation site surrounding Bee Lake.

Please be advised that if we do not hear from you within 30 days of the date of this letter, by **June 15th**, we will revoke the Interim Permit that has been issued to application 11544 on APN 530-151-005 and schedule both applications for a Planning Commission hearing, with a recommendation of denial to the unresolved resource concerns.

Please contact me at (707) 268-3721 or Megan Acevedo at (707) 441-2634 immediately.

Sincerely,

Cliff Johnson
Planning Manager

C: Megan Acevedo, Associate Planner
