DISCUSSION:

The California Department of Public Health (CDPH), Injury and Violence Prevention Branch (IVPB) has established a Sexual Orientation and Gender Identity (SOGI) Data Collection Pilot Program through Assembly Bill (AB) 1094. The program has selected six counties in the state, including Humboldt County, to participate in its initial efforts. This program aims to train death investigators to identify, collect, and report SOGI data to the California Violent Death Reporting System (CalVDRS) in

cases of violent death within the LGBTQ population. Violent deaths include homicide, suicide, unintentional firearm deaths, and deaths for which the intent could not be determined.

HCSO has received notice of approval for \$70,666.00, for the multi-year grant period of July 1, 2023, to June 30, 2025, for staff training, collection, reporting, and evaluation of SOGI data.

The California Department of Public Health (CDPH) will gather data to create effective violence prevention and intervention strategies to decrease preventable deaths among the LGBTQ community. This information will be useful for the state and local community, helping to better comprehend and prevent such tragedies.
