*Strengthening our community by educating,
inspiring, and connecting people*

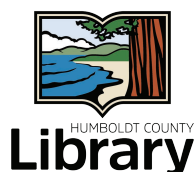

From the Director of Library Services

I am enthusiastic about presenting the 2020 Humboldt County Library Strategic Plan that will guide us through 2024. The plan is based on our vision for Humboldt County – “a welcoming, healthy, and prosperous community where there are abundant opportunities for learning and creativity.” Community input drove the process, which was designed to leverage library resources to achieve this vision. Thanks to the community partners who contributed to the plan and who support the ongoing development and success of the Library.

The plan took shape with input from focus groups, surveys, and community conversations. It is both aspirational and flexible and can be revised and refined to meet the changing needs of an increasingly diverse county. In fact, revision began almost immediately after the plan was completed, when the COVID-19 pandemic led to a closure of library buildings to the public in March 2020. In the months since, our dedicated library staff has reimagined library services, and will continue to meet ongoing challenges both large and small.

Thank you to all the Library supporters, community members, partner organizations, and Library staff who contributed their thoughts, ideas, creativity, and excitement to the planning process. I have enjoyed working with you to chart the Library's future. Our plan is flexible, with attainable goals, inspired by collaboration and thoughtful discussions. Together we can build a dynamic and vibrant community.

Chris Cooper, Director of Library Services
County of Humboldt

From the President of the Humboldt Library Foundation

At the Humboldt Library Foundation, we share your passion for the public library, which is why we were proud to fund the development of the 2020 Humboldt County Library Strategic Plan. The plan charts a course to bring more kids, families, and new users to the Library, expand community partnerships, and improve connectivity. Guided by library staff and forged by community input, your aspirations have been woven into the document while it lays out measurable outcomes and includes flexibility to respond to changing needs.

Our motto at the Humboldt Library Foundation (HLF) is “Open the World.” Our mission is to support the Humboldt County Library system. Since 1997, we have contributed over \$1.4 million to help our libraries acquire books, audio and digital materials, upgrade technology, and support programming. At the same time, we've been building an endowment that will fund the Library in perpetuity. This could not have been done without the generous support of individuals, businesses, and organizations from across Humboldt County. If you've been a supporter, we thank you. If this is the first time you've heard of us, we welcome your support. Check us out at www.humboldtlibraryfoundation.org.
