- 6 Happy Head Ranch Conditional Use Permit
Case Numbers CUP 16-365
Assessor's Parcel Number (APN) 316-174-007
Titlow Hill area

A Conditional Use Permit (CUP) Permit is requested for 15,000 square feet of existing outdoor cannabis cultivation with on-site processing. There are two sites of cultivation on the property (Area 1 and 2); a portion of Area 1 is currently within a watercourse class III buffer zone. Applicant proposes to relocate Area 1 to a site that is environmentally preferable. The proposed action is to move the entirety of cultivation Area 1 from the sensitive location and reduce the cultivation in this unit from 11,400 to 6,400 square feet, while adding 5,000 square feet to cultivation Area 2, making this second unit's cultivation area 8,600 square feet. The water source is a permitted well, with storage in thirteen hard tanks and a bladder totaling up to 82,500 gallons of water storage. To supplement the existing water source, the applicant proposes two rainwater catchment ponds and a rainwater catchment system. Irrigation will be implemented by hand to manage water distribution at an agronomic rate in order to prevent runoff. The projected water usage is approximately 92,000 gallons a year. Cannabis product will be dried and machine-trimmed on site in a proposed 60 feet by 40 feet commercially rated shop. Happy Head Ranch has filed a Notice of Intent with the North Coast Water Quality Control Board (NCWQCB) as a Tier 2 discharger. The project is a family-run operation and will not include the use of employees.

A motion was made by Commissioner McKenny, seconded by Commissioner Shepherd, that the Happy Head Ranch project be approved. The motion carried by the following vote:

Aye: 4 - Commissioner Morris, Commissioner Levy, Commissioner McKenny, and

- 7 Brannan Mountain Farms LLC Conditional Use Permit
Case Numbers CUP 16-332 and SP 17-140
Assessor's Parcel Number (APN) 522-211-051
741 Brannan Mountain Road, Willow Creek area

A Conditional Use Permit for an existing 12,268 square-foot (sf) commercial medical cannabis cultivation operation consisting of an 8,788-square-foot (sf) outdoor cultivation area and a 3,480 sf mixed-light cultivation area. Outdoor cultivation is divided into four separate areas and one existing greenhouse that was demolished for replacement. The mixed light cultivation area is contained within 2 existing greenhouses and the Applicant proposes to reconfigure into five greenhouses total. Also a Special Permit to allow a cultivation area setback of less than 600-feet from public lands used and managed for open space/wildlife habitat for the adjacent National Forest lands north of the property. Portions of Cultivation Areas 2, 3 and 4 encroach into the 30-foot setback from the eastern property line; consequently, the Applicant proposes to grow a non-cannabis crop within the setback. The applicant will relocate an existing cultivation area, existing greenhouse, and a proposed greenhouse that encroach into the 30-foot setback from the northern property boundary. The Applicant proposes two ancillary propagation areas: 1) a 4,300-square-foot outdoor area; and 2) an indoor propagation area to be located inside a proposed 1,200-square-foot processing building. In addition to the indoor propagation area, the proposed processing building will house a drying room, a trimming room, and an ADA-compliant bathroom. Annual projected water use is 396,000 gallons (1.22 acre-feet) and is sourced from the Willow Creek Community Service District. Water storage capacity on the property is 5,000 gallons in two 2,500-gallon hard-sided tanks, one of which is available for fire protection use only. Power for the cultivation operations is provided by four generators: 2 for supplemental lighting in greenhouses, 1 for water pumps, and 1 for backup. Fertilizers, soil amendments, and pesticides are secured on-site in a metal shipping container.

This item involves amendments to the Zoning Ordinance to allow improved floors and footpaths in greenhouses on prime agricultural soils where certain conditions are met to ensure the long-term protection of the underlying soil for future agricultural use. The current Zoning Ordinance prohibits improved floors and footpaths in greenhouses on prime agricultural soils. This limits the types of greenhouses for new commercial cannabis cultivation, which can only occur on prime agricultural soils. The amendments would modify sections 314-43.1.3.2 and 314-69.1.1.2 of Title III, Division 1, Chapter 4 (Inland Zoning Regulations); and section 313-69.1.5 to Title III, Division I, Chapter 3 (Coastal Zoning Regulations) of the Humboldt County Code.

A motion was made by Commissioner Levy, seconded by Commissioner McKenny, that this Zoning Ordinance be continued to December 14, 2017. The motion carried by the following vote:

Aye: 4 - Commissioner Morris, Commissioner Levy, Commissioner McKenny, and
Commissioner Shepherd
