Charles C. Ciancio

Date: 6/20/16

To: Anyone who cares about real world truths

Subject: Real world truths

As happens when I give input to the Humboldt County Supervisors during public comment, I find many not listening and refusing to see what I and many others see coming. I have found many of those controlling things utilize and listen to inexperience that is not based on the real world.

Sticking to what I know and to what I say in my books, through various committees and other members of the Fourth Branch of Government, the Executive Branch of Government, (mostly put in place by a voting minority especially in the western states and influenced by inexperienced media, politicians, protectionists, those who incorrectly apply legalese, and those with money and power) **controls** what happens to people and many other species in this world.

Wildlands are going to burn, we are going to have less fish, a shrinking 80% of wood needed by California is going to come from out of California, we are going to run short of water, many species are not going to be helped, and rural folks who raise cattle, those who fish, farmers, timber owners, rural folks, me, and many others are SOL.

We are **not** becoming a Democratic Republic as intended by some of our forefathers. We are becoming a Democracy controlled by inexperienced folks. There are messes all over the world, and I do not see things getting better.

Simply put, inexperienced minority voters are more influenced by those with a lot of money and power and not by real world truths.

In this politically correct world,
immigration questions not asked and not answered

Is it fair

To let those
Illegally here
do our work?

To let those with
criminal records and criminal intent
into this country?

To entice others to come here illegally
which are often raped and treated badly?

Are we helping promote
a lot of hurt
for people on all sides of the fence?

Something to think about
Lott asks in his books a question never asked

**How many lives have been saved
because someone had a gun**

He says more hurt by not having a gun
