DISCUSSION: Representatives from Six Rivers National Forest and the California Department of Forestry and Fire Protection (Cal Fire) will give a presentation to introduce the "Living with Wildfire in Northwestern California" publication to the Board of Supervisors and the public. The primary focus of the publication is to help reduce human-caused wildfires, increase homeowner participation in the effort to create wildfire-resilient communities and increase visitor awareness of fire safety and prevention. The publication is relevant to anyone who lives adjacent to or within the Wildland Urban Interface or WUI and visitors to the national forest or state and national parks. Rural residents are encouraged to use the publication as a resource as they prepare themselves for potential evacuation and make improvements that will help to mitigate damage from wildfire.
