NOW, THEREFORE, IT IS HEREBY PROCLAIMED by the Humboldt County Board of Supervisors that the following findings are hereby made; and

FINDINGS FOR DENYING THE GENERAL PLAN & ZONE RECLASSIFICATION PETITION			
1.	FINDING:		<p>The General Plan Amendment petition is consistent with one or more of the General Plan’s required findings and criteria for amendments:</p> <ul style="list-style-type: none"> A. Base information or physical conditions have changed; or B. Community values and assumptions have changed; or C. There is an error in the plan; or D. To maintain established uses otherwise consistent with a comprehensive view of the plan; or E. The proposed amendment has the potential for public benefit and is consistent with the Guiding Principles and applicable goals of the Plan. <p>The Applicant submitted a letter (Attachment 3) requesting a General Plan Amendment and Zone Reclassification. The following information supports the findings above.</p>
	EVIDENCE:	a)	<p>B - The property owner wishes to develop a commercial cannabis farm as a resort-type destination for visitors interested in comfortably experiencing cannabis cultivation and consumption in an authentic rural setting. A variety of recreational experiences are also planned to be offered to guests together with food and spa services. At this time, the</p>

			General Plan and Inland Zoning Regulations do not provide many pathways for proposals of this scale and sort. Primarily for this reason, a change in the zoning and land use of the site is being requested.
		b)	E/F - The proposed amendment has the potential for public benefit through job creation and helping support and showcase cannabis culture in this region of the county. It is also consistent with the Guiding Principles and applicable goals of the Plan as it is in the public interest to facilitate agricultural tourism in cannabis growing regions.
		c)	F - One of the General Plan's Guiding Principles includes "support (of) the County's economic development strategy and efforts to retain and create living-wage job opportunities". The applicant anticipates that the project will create high-quality job and career opportunities related to management and operation of the proposed commercial cannabis operation and resort.
2.	FINDING:		There is factual evidence that the petition for general plan amendment and zone reclassification is <u>not</u> in the public interest.
	EVIDENCE:	a)	Amending the General Plan and Zoning will allow the potential permitting of a commercial cannabis farm that will dual as a resort-type destination. The proposed amendment has the potential for public benefit through job creation and helping showcase cannabis culture in this region of the county. Tourism of this sort raises the profile of the county's commercial cannabis industry and can help it stabilize and flourish in the years to come.
		b)	The singular nature of the proposed mapping amendments are problematic as they would result in "spot zoning" (i.e. the creation of a single parcel with land use and zoning different from all adjoining lands) creating potential incompatibility with neighboring lands exclusively planned and zoned for agricultural uses.

3.	FINDING:	The petition for an amendment of the County's zoning maps is not consistent with the General Plan.
		a) The singular nature of the proposed mapping amendments are problematic as they would result in "spot zoning" (i.e. the creation of a single parcel with land use and zoning different from all adjoining lands) creating potential incompatibility with neighboring lands exclusively planned and zoned for agricultural uses.
		b) The closest nearby lands with matching land use and zoning (RA/FR) are part of the Larabee Creek Ranch, which lies on the west side of Alderpoint Road approximately ¾ of a mile west of the parcel targeted for rezoning.
		c) The majority of adjoining parcels lie within agricultural preserves under Williamson Act contracts for land conservation.
		d) The proposal conflicts with 'No Net Loss' policies of the General Plan designed to discourage and prevent lands planned or zoned Agriculture Exclusive (AE) from being converted to non-agricultural uses.
4.	FINDING:	The amendments are not appropriate for the next scheduled update of the General Plan.
	EVIDENCE:	a) For the reasons outlined above, it is appropriate to deny the current petition request at this time and not delay further action on the matter.
