If a general aggregate limit is used, such limit shall apply separately hereto or shall be twice the required occurrence limit.
 2. As stated in Exhibit A – Scope of Services, CONTRACTOR will not drive an automobile in the performance of services for COUNTY. If that changes, CONTRACTOR will take out and maintain Automobile/Motor Liability Insurance with a limit of liability not less than One Million Dollars (\$1,000,000.00) combined single limit coverage. Such insurance shall include coverage of all owned, hired and non-owned vehicles. Said coverage shall be at least as broad as Insurance Service Offices Form Code 1 (any auto).

 3. The inclusion of more than one (1) insured shall not operate to impair the rights of one (1) insured against another insured, and the coverage afforded shall apply as though

separate policies had been issued to each insured, but the inclusion of more than one (1) insured shall not operate to increase the limits of the insurer's liability.

4. For claims related to this Agreement, CONTRACTOR's insurance is the primary coverage to COUNTY, and any insurance or self-insurance programs maintained thereby are excess to CONTRACTOR's insurance and will not be used to contribute therewith.
5. Any failure to comply with the provisions of this Agreement shall not affect coverage provided to COUNTY or its agents, officers, officials, employees and volunteers.

CALFRESH OUTREACH PROPOSAL

HUMBOLDT STATE UNIVERSITY SPONSORED PROGRAMS FOUNDATION

CalFresh Outreach Guidelines for Fiscal Year 2018-19

Federal and State funding for CalFresh Outreach has created an opportunity for community-based organizations and the Humboldt County Department of Health & Human Services (DHHS) to partner in improving the health of our community. Funding is available again this year to community-based organizations for outreach, education and application assistance.

The overarching goal of the CalFresh program is to improve the health and well-being of families and individuals in Humboldt County. Reliable access to nutritious food is essential for overall health and is important in the prevention of chronic diseases. The objectives of the outreach program and this funding are to:

- increase awareness of and enrollment in CalFresh,
- reduce barriers to CalFresh enrollment and retention, and
- increase awareness and adoption of healthy food and life choices that improve wellness and prevent chronic disease.

There are still many potentially eligible residents who have not applied for CalFresh benefits and there are many CalFresh participants who do not maintain enrollment. DHHS is focused on increasing CalFresh enrollment and retention and is interested in partnering with community-based organizations willing to join the effort.

DHHS would like to partner with community-based organizations that can help with the following efforts.

- Support enrollment and retention processes with information, pre-screening, direct application and enrollment assistance, and retention assistance.
- Educate community members about CalFresh and program changes.
- Reduce barriers to enrollment, including stigma, fear, language/literacy, and others.
- Reach populations with low CalFresh Participation Rates (such as working families, seniors, persons in recovery, persons with limited literacy or ability to speak/read English, transitional aged foster youth, and the homeless).

- Link CalFresh to access to nutritious food and provide CalFresh-related nutrition information and guidance, including how to shop for and cook with nutritious foods on a budget.

DHHS will consider a partnership request at any time during the fiscal year and the activity time frames for requests do not have to fall completely within the fiscal year. Requests can span fiscal years.

Application assistance and direct enrollment support is DHHS's highest priority. Priority will be given to proposals that focus on application assistance, intake and enrollment support and retention support.

A complete partnership request includes a completed FY 2018-19 Partnership Request Form, Outreach Estimates Form, Partnership Request Budget Form, and narrative as outlined on the request form.

Interested? Please read the contractor guidelines below and complete and return the attached CalFresh Outreach Partnership Request Form, with attachments, electronically to CalFreshOutreach@co.humboldt.ca.us or paper copies to CalFresh Outreach DHHS 929 Koster St., Eureka, CA 95501.

Application process and application and outreach partner program questions can be answered by the CalFresh Outreach Analyst at (707) 476-4760 or by emailing CalFreshOutreach@co.humboldt.ca.us.

Budget Increase

This year, we are requesting increased funding to support the staff required to serve the overwhelming response to CalFresh Application Assistance at HSU. This past AY 2017-18, we helped over 900 students apply for CalFresh, and had over 10,000 visits to Oh SNAP (where CalFresh application assistance occurs) and hundreds more participate in the campus farm stand, cooking demonstrations, and other outreach events. We are coordinating efforts to increase the quality of our outreach and the acceptance rates of our applicants as well as fine tuning the nutrition and gardening education aspects of our outreach.

Budget additions:

- Add two student assistants to focus on:
 - increasing student outreach to in-need spaces on campus, and to do more out of the pantry nutrition education including tools learned from Leah's Pantry and Harvest of the Month
- Increased per hour costs, based on staff changes
- Increased Consumables for Cooking Classes, Gardening Workshops, and Calfresh Outreach at new locations on campus.

Budget elimination and reduction

- Eliminated Administrative Support personal (2 positions), will be provided by the university

Project Description Narrative

For the past 4 years Humboldt State has been leading the Cal State University System in research about food insecurity for college students. Food insecurity is a demonstrated concern at Humboldt State University (HSU); 53% of HSU students who filled out a food security survey (N=1,554) in fall 2015 reported low- (23%) or very low- (30%) food security (Maguire, O’Neill, and Aberson, 2015). The efforts of Department of Social Work, Health Education, the Altruistic Personality and Prosocial Behavior Institute, and many other campus units, in partnership with DHHS and other agencies, have led to OH SNAP! Student Food Programs, a cluster of comprehensive campus food security programs initially implemented during AY 2013-14. The project described will continue the positive momentum initiated with the support of a HSU Oh SNAP! and DHHS CalFresh Outreach Partnership contract.

The overall aim of the project has been to increase CalFresh enrollment of eligible HSU students through application outreach assistance, intake, and enrollment support. We have since added case management follow-through support to increase the number of students qualifying for benefits, comprehensive college focused nutrition education, and gardening education. The survey by Maguire, O’Neill, and Aberson (2015) showed that CalFresh utilization by HSU students was higher than expected: 19% used CalFresh benefits and 16% received CalFresh Application Assistance at Oh SNAP! These utilization statistics represent not only the need of students for CalFresh, but also the positive impact that the CalFresh Outreach Partnership Contract created at HSU. Table 1 illustrates the high participation rates at HSU where overall campus enrollment at HSU is approximately 8,000 students per year.

Table 1: OH SNAP! Campus Food Program Use Description 08/2017-05/2018

In addition to CalFresh Application Assistance, this project seeks to reduce misconceptions and stigma associated with CalFresh eligibility for college students by promoting healthy eating. We have seen significant use of Calfresh EBT benefits at the on campus marketplace. From February 2016 until May 8th, 2017 the Marketplace has seen over \$100,000 in business from CalFresh usage. HSU Dining Facilities have implemented a program to package and refrigerate leftover food from campus. This has increased the availability of cooked, nutritious food that is affordable and can be purchased using EBT. Students have responded well to the idea that Calfresh is similar to Financial AID a temporary tool to help them be successful in school. We have seen a significant reduction in stigma anecdotally on campus and we are working on research for the next year to measure the change on campus.

The project also increases healthy food and meal distribution at cooking demonstrations, educational workshops, and targeted outreach events for many students who tend to purchase “cheap and prepared foods” because they do not know how to grow, shop, cook, or budget for affordable and healthy foods. Furthermore, many students run out of money long before the semester is over because of the high cost of food, housing, tuition, and books. This is often months prior to the next financial aid distribution on a campus where federal work study jobs are limited, and in a community where it is difficult to find a job at all, let alone a position that accommodates course schedules. While the focus of drop-in CalFresh application assistance will

be to enroll eligible individuals through direct assistance, Student Assistants will also address how nutrition, access to food, and food choices are linked to chronic diseases as well as how eating nutritious food is associated with many positive outcomes. We have created a one-on-one health education program called C.I.Y. (Choose It Yourself) to address different health issues on campus. In these modules students met with a peer educator and learned about different health and wellbeing issues. The modules are created by students with the guidance of medical doctors and counseling staff on campus. Three of the modules focus on food, nutrition, and budgeting, and students were also provided space to sign up for CalFresh at these events. They have been very well received and we had over 300 students attend CIYs this year.

We continue to offer our gardening classes, and have broken ground on our on-campus garden. We offered 5 different gardening workshops this spring. We partnered with our on-campus composting program to provide free compost. By introducing students to how food is produced we hope to get them engaged in healthier lifestyle choices and to get the most from their benefits.

Additionally, building on needs identified in current research, the project aims to engage the campus and broader community in ways that increase access to healthy food from multiple points in the food system. Assisting college students to eat healthier foods promotes their ability to focus on studies and complete a college degree, which is critical in California where there is a predicted labor force shortfall for college-educated workers by 2020.

We continue to have success with the Oh SNAP App and have diverted over 10,000lbs of food from landfills this year. This year saw the launch of the J-Point redistribution program as well. This has been beneficial to getting more information to students who don't qualify for CalFresh now, but will in the future. J-Points are the campus currency for purchasing food. Students with an excess amount of points can donate them and then Oh SNAP redistributes them to students who are in an emergency need who may not qualify for CalFresh or who haven't applied. Students who request the points are required to meet with the program director to determine if they are CalFresh eligible and are required to apply if they are. We soft launched this program this spring and distributed points to over 70 students.

Student assistants teach students about shopping for, cooking, storing and eating healthy home-cooked meals that can be prepared in a college living environment. They use CalFresh educational resources to teach clients about available food resources, healthy food choices, nutrition, healthy cooking or eating, food systems, and other nutrition messages.

CalFresh Application Assistance is offered during all undertakings associated with Oh SNAP! Student Food Programs. Following is a general list of CalFresh Application Assistance procedures that occur during almost all program activities.

1. Students sign-in onsite using a laptop computer to fill out a survey that helps determine program needs and evaluation.
2. Nutritious snacks, coffee and hot tea are provided for students seeking information about CalFresh.
3. Student assistants offer information on CalFresh guidelines and de-stigmatization messages.
4. All students are screened for CalFresh eligibility.
5. Each student who receives snacks also receives printed literature that outlines program benefits and requirements, de-stigmatization messages, website address, phone number, and physical address to apply for benefits.
6. The student assistant is available to answer questions, offer encouragement, and provide other resource information for services that meet basic needs offered on and off campus.

Oh SNAP! Student Food Programs activities where CalFresh Application Assistance takes place:

1. At the *Oh SNAP! Student Food Pantry* located at the Recreation and Wellness Center, Room 122, students leave with free healthy food, spices, recipes, and additional resources for further nutritional assistance.
2. At the *Oh SNAP! Farm Stand*, where students leave with free seasonal local organic produce.
3. At *Breakfast and Books*, a collaboration event on Saturday mornings with the Women's Resource Center on campus.
4. During *Oh SNAP! Cooking Demonstrations*, students learn to cook simple, delicious and nutritious meals for free. Students leave with recipes and healthy foods that reflect seasonal produce availability and foods provided at the food pantry.
5. *Wellness Fridays*, health education drop-in hours every Friday at the Multicultural Center, African American Center for Academic Excellence, the Latinx Center for Academic Excellence, and Indian Tribal & Educational Personnel Program (ITEPP)
6. *Oh SNAP! Food Recovery* redistributes food from campus events and markets to students for free using a student developed phone app.
7. *Oh SNAP! CalFresh Garden Project*, where students will learn how to purchase gardening supplies with CalFresh and have access to campus and community expertise on planting, growing, harvesting, preserving, and cooking their own food. Information will also be on the Oh SNAP! website.
8. *SNAP! Into Your Day with a Healthy Breakfast*, where students sit down together for a free healthy breakfast at Oh SNAP! once a week.
9. *Oh SNAP! CalFresh Outreach Events* for new student orientations, campus and program events, and department meetings.
10. *All Health Education events*: Last year we cross-trained all health educators (23 staff members in total) to do CalFresh, Medi-Cal, and Family PACT applications. They are offered at every program we coordinate and the programs that we are invited to attend and table at.

The list is longer than is allowable in this application. For an idea go here:

Our work brought attention to issues of student food insecurity in local, state and national forums. Project staff are involved in a variety of public forums, including the HSU Social Justice Summit, Humboldt Food Policy Food Summit, Food For People Food Pantry Summit, in Arcata; #RealCollege National Convening in Milwaukee; CA Higher Education Food Summit in Santa Barbara; CSU Conference To Best Meet the Needs of Housing Displaced and Food Insecure Students in Long Beach; Humboldt County CalFresh Forum; California Food Bank Association Bi-Annual Meeting; CSU Office of the Chancellor Basic Needs Initiatives Webinar; Humboldt Magazine; California Health Educator Magazine.

As part of this ongoing work at the state level, Jen Maguire, HSU Assistant Professor of Social Work, and Rashida Crutchfield, CSULB Assistant professor of Social Work, were commissioned by the CSU Chancellor's Office to conduct a large scale survey that was piloted originally at HSU and referred to above (Maguire, O'Neill, and Aberson, 2015); the results for the whole of the CSU have been released, and confirm the trends we've seen at HSU. Currently the Center for Rural Policy is working on a comprehensive evaluation of the effect that Oh SNAP has had at HSU - we look forward to sharing the results when they are released. Oh SNAP! provides a model for serving food insecure college students (link: <https://www.calstate.edu/AcadAff/foodsecurity.shtml>).

2. Ensure that students receive education and coaching about gardening and that CalFresh outreach materials, application assistance and de-stigmatization messages are provided	1-12 months	Garden Educator will ensure that CalFresh materials and messages are available to be offered at all times during CalFresh Garden Activities.

Objective 5: Project Management: Oh SNAP! will ensure that the project is well managed and accountable.

<i>Task Description</i>	<i>Duration</i>	<i>Details and outcomes</i>
1. All expenditures will be tracked and recorded by the Project Director and HSU Sponsored Programs Foundation. CalFresh expenditures will be allocated to the appropriate accounts	Months 1-12	Audited financial statements will be available
2. Oh SNAP! will submit quarterly and final reports to DHHS	Month 4, 7, 10 and 13	All staff will be responsible for collecting data on CalFresh activities and submitting them no later than 21 days after the end of each quarter.

How will the proposed activities fit into or relate to other programs in your organization and community?

Seventy percent of HSU students receive some sort of financial aid. Most students are eligible for basic health services through the HSU's Student Health Center. Counseling services are also available as well as intensive support services for current and former foster youth. Historically, the number of people returning to college increases during difficult economic times. This trend is consistent with HSU's student population. This non-traditionally aged student population often consists of people who have not been successful in the workforce and/or have families to support and/or are first-generation students. This project assumes that CalFresh eligibility among the HSU population ought to be higher than in past years given these circumstances. This project also assumes that the CalFresh penetration rate is below what can be achieved with the active and compassionate efforts of well-trained and supported Student Engagement Assistants from the Department of Social Work.

Our mission at Oh SNAP! is to increase access to nutritious and culturally appropriate food for all HSU students by engaging in campus and community partnerships and by raising awareness of food insecurity among students. The aim is to provide students with basic necessities and connections to community resources. The services currently include CalFresh Application Assistance, a campus food pantry, a weekly farm stand with free fresh fruits and vegetables, connections to other local food resources, outreach events, free cooking demonstrations, and a shuttle service to and from the HSU campus, the Arcata Food Pantry, and the Farmers' Market.

Offering healthy nutritious meals and screening every student visitor to Oh SNAP! for CalFresh eligibility will increase the number of students who are aware of CalFresh and other programs that can help them perform successfully academically and complete a college degree. In addition, it will reduce food insecurity for a population of people who historically were not considered food insecure, until increases in the cost of public higher education were recently identified as cost-prohibitive and as creating real challenges for students to afford school and stay enrolled. CalFresh has the potential to give students the "boost" that makes it possible to succeed in college and become financially self-sufficient. We look forward to continuing our partnership with the CalFresh Partnership.

Please describe your organization's capacity to succeed with the proposed project and your plans, if any, for continuing the work after the proposed project is complete.

The Department of Social Work at HSU has been supporting bachelor's level social work for over 60 years and graduate level social work for over ten years. HSU Health Education staff members have been advocates for student health for many years. The Altruistic Personality and Prosocial Behavior Institute has been on the forefront of research and practice related to human relationships and well-being for three decades and will continue to assist with program assessment and evaluation. We are a strong, committed team, and part of successful organizations that will be around for a very long time. We expect to be successful in our focus on application outreach assistance, intake and enrollment support and to continue this project should funding be available in future years. We have secured additional support for a broader HSU Student Food Security project through internal and external funding opportunities. We serve as the incubator for

and have successfully launched an institution-wide CalFresh outreach effort and food pantry on campus.
